

God has called us to a ministry of encouragement and storytelling through the medium of still imagery and video. In this ministry of encouragement and storytelling of workers abroad, we have the incredible opportunity to foster connections through relationship built on integrity, friendship, empathy, and time. By truly immersing ourselves in the lives of the workers we encounter, we gain a deeper understanding of who they are and the divine calling that is upon their lives to live and reach out to least and unreached people groups. As we capture stories through the powerful mediums of photography and video, we can bring to life the experiences, struggles, pressures, risks, and triumphs of individuals and teams working with least reached people groups. As we experience these stories firsthand, we are reminded of the inherent connections that bind us all together, transcending borders and differences. Just as each story is unique and inspiring, they collectively form a testimony to the transformative power of the Father in shaping our lives and fostering a sense of unity with our brothers and sisters abroad as well as in our own neighborhoods. These stories not only bridge geographical gaps but also serve as a testament to the human spirit's resilience and beauty found in the Hope of a personal relationship with Jesus.

# LIVING BEYOND

## Vision

Our vision is to share stories of how God is working through people in some of the least reached areas of the world, inspiring others to be "All In" for Him. We invite you to join us in engaging with the world around you and going beyond yourself.
