

About The Nippitaty Distillery

The Nippitaty Distillery was founded in 2017 by Traxler and Claire Littlejohn and is South Carolina's first organic distillery. The name "Nippitaty," was chosen for a specific reason. Nippitaty is defined as "a particularly good and strong liquor."

Nippitaty has two main products, our "New Wave" style Gin and our Flavored Vodka. We have a saying at in the distillery, Traxler plays inside the bottle and Claire plays outside the bottle. Meaning, Traxler is responsible for the beauty in the bottle while Claire manages the branding is responsible for the label design.

Together they are the perfect couple!

GIN

Made from 100% organic grain neutral spirits infused with twelve superior botanicals and crafted from the union of two choice recipes. Nippitaty's flagship gin is a crisp, balanced, and clean.

We created this Gin for both the gin lover and those who have experienced a "Gincodent" (when you have a bad gin experience and swear it off forever). This incredibly balanced spirit has even been referred to as a "spice cabinet of flavor" by International Spirits Review.

The Gin has a citrus nose that comes from grapefruit, lemon, and orange peel. There is a cacophony of spices in the middle ranging from chamomile, cardamom, coriander, and a shadow of Juniper. The finish starts cool and then a small wave of cinnamon. We decided to pull back the juniper and let the other botanicals shine.

Suggested Cocktails: Collins, Martini, Gin & Tonic, Mojito

Flavored Vodka “Botanica” Crafted from earth-friendly botanicals and fashioned to enhance your cocktail. A bright, charismatic spirit.

Botanica is a devilishly smooth spirit with hints of cardamom, cucumber, and orange peel on the nose. The flavor evolves through notes of cardamom, cucumber and finishes with a touch of ginger and cinnamon. This product was designed for people who want to enhance their vodka cocktail with flavor but not be overpowered with flavor. In case for both products, we have intended to enhance and not overpower your cocktail.

Suggested Cocktails: Gimlet, Mule, Bloody Mary
