"Instructors demonstrated warmth, competency, and work well as a team."

"This was by far the best workshop I have ever attended. This information is invaluable and already my clients are telling me how much more I get them."

WHAT IS THE ENNEAGRAM?

The Enneagram is a powerful system that describes nine distinct personality types and their interrelationships. It supports in-depth clinical understanding of our clients so we can quickly craft interventions most likely to be effective for them.

"I think there's a lot of wisdom in understanding personality through the Enneagram framework."

~ Daniel Siegel, MD
