Making Dreams Come True

Dear Future Author,

It is a huge step to decide to take your creative writing and decide to publish it. I know that it can be a scary decision. Here at Warriress Publishing we are here to make it stress free for you and to take your words and make them a published book around the world.

We are here to for writers who want to become an author make that dream come true. We will review your manuscript and if accepted, we will transform it into the book you have envisioned it to be, from our professional editing process to professional book covers based on your idea, to formatting and publishing your book.

Warriress Publishing was established because I was an Indie Author who saw how difficult it was to navigate the publishing and author world. I saw how much money to took to pay for covers, editing and advertising and with a vision to help others make their dreams of becoming an author come true, I built Warriress Publishing.

Warriress Publishing is a traditional publishing company that stands as a testament to the strength and ingenuity of women. We are a woman-owned and woman-ran enterprise; however, we proudly champion the power of all voices. We pride ourselves on the diversity of our staff and our authors. No matter your gender, sexuality, nationality, race, or religion, you are welcome with Warriress. Our commitment to our authors runs deep: every author we support and every member of our team. We're driven by a collective mission to amplify the narratives that are too often overlooked.

What makes us a traditional publishing company? This is a common question these days, as there are so many companies out there that claim to be traditional and are not truly traditional. We pay you royalties and do not charge you for publishing your eBook or paperback. We offer copy editing for your work as well as cover design. You, of course, have the final say on the final product. We create the book you want and one you will be proud of at the end of the process.

We invest in our authors. Generous royalties and substantial advertising outlays demonstrate our dedication to the writers we serve. From day one, my goal was clear: facilitate connections between authors and readers, nurture brands, and contribute to families' financial well-being. Quality remains paramount, and affordability is a constant pledge.

Our daily toil is geared toward lifting the unheard through the transformative power of the written word. It's more than a company; it's a conduit for change.

Sincerely,

Tanya Smith

ONTO EDITING

PRE EDITOR STAGE

During this stage, your manuscript will go to first your alpha readers, then your beta readers. After each of these reads and gives feedback, you go over the manuscript and take any feedback you want to from the alpha or beta readers until you're satisfied with it.

STAGE ONE FIRST PASS

You turn in the manuscript to the editor. The editor does a first pass to check for any unclear phrases, misspelled words, and incorrect punctuation. Any major problems that require changes will be discussed with you in this stage of editing. If necessary, you will review the manuscript at this point.

STAGE TWO SECOND PASS

After you have made any changes to the manuscript that the editors have requested, it goes for a second pass through the editors. They are looking for grammar and spelling. This is an in depth pass through. After this pass, the author will review the book once again, making any last minute changes necessary.

STAGE THREE PROOFREADING

The final pass is conducted after all other passes. This is to get the entire book proofread only for grammar and spelling errors that remain after the other two passes. This is done after the author has approved other passes.

*THE ENTIRE PROCESS WILL TAKE EIGHT TO TEN WEEKS
DEPENDING ON HOW MUCH EDITING YOU REQUIRE*

You and the cover designer will work together to make sure your cover is created as close as possible to your ideas. You will be the one to approve your cover.

The Author Operations Manager will keep a close eye on this process to make sure it goes smoothly and to your satisfaction.
