Forward Looking Statements

Certain statements contained in this presentation constitute forward-looking statements. These statements relate to future events, the future performance, business prospects or opportunities of Big Red Mining Corp. (the "Company"), or possible events, conditions or financial performance that is based on assumptions about future economic conditions and courses of action and includes future oriented financial information with respect to prospective financial performance, financial position or cash flows that is presented either as a forecast or a projection. . All statements other than statements of historical fact may be forward-looking statements. Forward-looking statements are often, but not always, identified using words such as "seek", "anticipate", "plan", "developing", "estimate", "expect", "may", "will", "project", "predict", "potential", "targeting", "intend", "could", "might", "should", "believe", "identify", "developing", and similar expressions. These statements involve known and unknown risks, uncertainties and other factors that may cause actual results or events to differ materially from those anticipated in such forward-looking statements. The Corporation believes that the expectations reflected in those forward-looking statements are reasonable, but no assurance can be given that these expectations will prove to be correct and such forward-looking statements should not be unduly relied upon. These statements speak only as of the date specified. The Corporation does not intend, and does not assume any obligation, to update these forward-looking statements. These forward-looking statements involve risks and uncertainties relating to, among other things, results of exploration activities, the Corporation's limited experience with development-stage mining operations, uninsured risks, regulatory changes, defects in title, availability of materials and equipment, timeliness of government approvals, changes in commodity and, particularly, copper prices, actual performance of facilities, equipment and processes relative to specifications and expectations and unanticipated environmental impacts on operations. Actual results may differ materially from those expressed or implied by such forward-looking statements.

HISTORICAL RESULTS DISCLAIMER

THE RESULTS DISCLOSED IN THIS PRESENTATION ARE HISTORICAL IN NATURE. BIG RED MINING CORP. HAS NOT RECALCULATED ANY MINERAL RESOURCES, REVIEWED ANY QUALITY CONTROL SAMPLES, OR INTEGRATED THE QUALITY OF DATASETS AND CANNOT COMMENT ON THE RELEVANCE OR RELIABILITY OF SUCH INFORMATION.

Technical information in this presentation has been reviewed and approved by James R Atkinson, M. Sc., P. Geo., Certified Professional Geologist who is a Qualified Person in accordance with NI 43-101 reporting standards. Mr. Atkinson's company Rich Copper Exploration Corp. optioned the Dobie Lake property to the Corporation. The historical results shown in this presentation have been obtained from a search of the Ontario Ministry of Northern Development Mines and Energy (MNDM) Assessment files and were reviewed by James Atkinson P. Geo. The information is considered reliable as far as can be determined but should not be relied upon.

Risk Factors

An investment in the securities offered involves a high degree of risk and is appropriate only for investors who are prepared to have their money invested for a long period of time, and have the capacity to absorb a loss of some or all of their investment. There is no public trading market for the Corporation's securities. This means that there is no central place, like a stock exchange or stock quotation system, to resell your securities. In addition, there are restrictions on the resale of the securities, which may make it difficult or impossible for you to sell your securities. This means that even if you locate a buyer and negotiate your own sale, you may still not be allowed to resell your securities. In addition, there is no obligation on the Corporation to repurchase from you any securities that you may buy. The price for the securities that are offered was arrived at arbitrarily and may not bear relationship to the actual value of the Corporation. The offering price bears no necessary relationship to the Corporation's assets, book value, net worth or any other recognized criterion of value. Among factors considered by the Corporation in determining the offering price were estimates of the Corporation's business potential, the Corporation's financial resources, the amount of equity and control desired to be retained by the Corporation's present securityholders, and the general condition of the securities markets. The Corporation will need to obtain additional financing in order to pay for all the Corporation's expenses. The Corporation believes the only realistic source of future funds presently available to the Corporation is through the sale of equity capital via a public offering or a private placement, or from loans. Any sale of share capital will result in dilution to existing shareholders. At the present time, the Corporation has not made any plans to raise additional money and there is no assurance that the Corporation will be able to raise additional money in the future. If the Corporation needs additional money and can't raise it, the Corporation will have to suspend or cease operations, which could adversely affect the Corporation's share price. The Corporation has no operating history or any revenues or profits from operations since incorporation. The business may fail as a result of management's lack of experience or other factors and an investor could lose his/her/its entire investment. The Corporation does not obtain title insurance or title opinions with respect to properties in which the Corporation holds or intends to acquire an interest. The possibility exists that title to one or more of the properties, particularly title to an undeveloped property, might be defective because of errors or omissions in the chain of title, including defects in conveyances and defects in locating or maintaining such claims or concessions. The ownership and validity of mining claims and concessions are often uncertain and may be contested. There are no assurances that the Corporation will obtain title. Both presently owned and after-acquired properties may be subject to prior unregistered agreements, transfers, land claims or other claims or interests. In addition, third parties may dispute the rights of the Corporation to its respective mining and other interests. The Corporation holds an option to acquire mineral claims but they do not contain any known commercially viable mineral deposits. Both the size of a deposit and the cost of extracting ore are key factors in determining whether a mineral deposit is commercially viable. If the Corporation does not find a viable mineral reserve on any of its claims or if the Corporation cannot develop a mineral reserve that may be found, either because of insufficient funds or because it will not be economically feasible to do so, the Corporation may have to cease operations and an investor could lose his/her/its entire investment. Potential investors should be aware of the difficulties normally encountered by new mineral exploration companies such as the Corporation and the high rate of failure of such enterprises. The likelihood of success must be considered in light of the problems, expenses, difficulties, complications and delays encountered in connection with the exploration of the mineral properties that the Corporation hopes to undertake. These potential problems include, but are not limited to, unanticipated problems relating to exploration, and additional costs and expenses that may exceed current estimates. Very few mineral exploration properties actually contain commercially viable mineral deposits. The Corporation has no history upon which to base any assumption as to the likelihood that its business will prove successful, and the Corporation can provide no assurance to investors that it will generate any operating revenues or ever achieve profitable operations. If the Corporation is unsuccessful in addressing these risks, its business will most likely fail.

- **Copper market will be in a state of deficit.** It means that mine supply won't catch up with the copper-hungry clean energy revolution.
- The major copper mines were discovered 30 years and put into production 20 years ago and are now running out of ore.
- There is nothing you can do now that will increase supply 5 years from now – it takes 15 to 20 years to find - permit – finance a copper mine – very capital and time intensive. **DEMAND FOR COPPER WILL BE HIGH AND SUPPLY LOW.**

Copper: Demand to Soar 3x

- The world is hungry for copper. We need this metal to manufacture wires and transmit electricity.
- An average gas car has about 20 kilograms of copper. Electric vehicles use about 80 kg.
- Solar and wind power generators... energy storage systems... EV charging stations... **they all need massive amounts of copper.**

Capitalization Table

Total issued and Outstanding: 24.9 M

Fully-Diluted: 38.4 M

Management Ownership: 36%

- 19.1 M Shares* + 6 M* warrants exercisable at \$0.20 for 5 years from date of listing (*17.2 M Shares and 6 M warrants ESCROWED OVER 3 YEARS FROM DAY OF LISTING and 1.9 M Shares escrowed for 18 months from date of listing as follows: 25% released 3 months after list date, 25% released 6 months after list date, 25% released 12 months after list date and final 25% released after 18 months after list date)
- 4,879,500 Special Warrants at \$0.20 with full Warrant at 0.25 for 3 years – All free trading
- 960,000 Flow Thru at \$0.25 with full warrant \$0.30 for 2 years
- 1.7M stock options at \$0.20 escrowed for 1 year from Nov 8, 2021

Dobie Lake Copper Property- Ontario – World Class Location

- Located in Albanel Township - approx. 100 km from Sault Ste Marie, Ontario
- Highway 546 crosses the property and there are ATV trails covering most of the property
- The Dobie Lake Property comprises 169 claims totaling 8,900 Acres Property surrounds and covers Extensions of the Past producing Jentina Mine.
- The mineralized structures, having a combined strike length of over **8 kilometers**

Mission

Big Red Mining Corp.'s mission is to conduct future drilling campaigns on the Dobie Lake property to maximize its minable resource potential, making it attractive to potential acquirer.

- To this end, the Company intends to:
 - Drill the over eight kilometres of the combined potentially mineralized structures identified on the property to date.
 - Identify all of the potentially mineralized structures within the Company's land package.
 - Expand the land package where additional mineralized structures have been identified.
 - Drill all the prospective structures along their combined strike lengths, down their prospective depths of approximately 800 metres.
 - Complete metallurgical testwork to maximize recoverable copper.

Leadership Team

Jag Sandhu; Founder, CEO, Director

Mr. Sandhu has over 18 years of experience in the capital markets in corporate finance and development. Mr. Sandhu has assisted domestic and international mining companies in raising multi million dollars for exploration, development and expansion. He has dealt extensively with strategic planning, mergers and acquisitions, financings and operations for various companies. Mr. Sandhu has held various senior level executive positions in several listed companies. He received his Bachelor of Economics degree from Simon Fraser University in 1990.

James R Atkinson, MSc., P. Geo., Director, Qualified Person (QP) Under 43-101

Mr. Atkinson is an experienced exploration geologist and project manager with over 45 years of experience. Mr. Atkinson has spent his career in both mineral exploration and mining and in the environmental field attaining positions of Vice President, Exploration Manager and Regional Manager with junior and major mining companies such as Newmont Corporation (TSX: NGT), BHP Group Ltd. (NYSE: BHP) and Agnico Eagle Mines Ltd (TSX: AEM). He has reviewed, evaluated and acquired projects around the world and recently has also been part of the team responsible for mergers and acquisitions at Americas Gold and Silver Corp. (TSX: USA) (NYSE: USAS). He has worked with investors to form and run junior exploration companies. In the area of mineral exploration, he has designed and managed multi-million-dollar programs searching for and discovering various commodities including industrial minerals. These programs comprised of up to 100 staff and involved geophysical, geochemical and drilling programs as well as prospecting and geological mapping. He has negotiated option and purchase deals for mineral properties.

Leadership Team (Continued)

Paul Grewal, CPA and CA, Chief Financial Officer

Mr. Grewal is currently a Partner with HWG Chartered Accountants in Surrey, BC. He received his Bachelor of Commerce from UNBC in 1998, received his CA designation in 1998 and has completed Parts I & II of the CICA In-Depth Tax Course. Mr. Grewal joined Heming, Wyborn & Grewal in 2005 and was promoted to Partner on January 1, 2009. Mr. Grewal has been the CFO of several publicly listed junior mining companies in Canada. He has extensive experience in the financial management of corporations that are doing business in a variety of industries.

Rodney Stevens, CFA, Director

Mr. Stevens is a CFA charterholder with over a decade of experience in the capital markets, first as an investment analyst with Salman Partners Inc., then as a merchant and investment banker. While at Salman Partners, he became a top-rated analyst by StarMine on July 17, 2007. Mr. Stevens was also a Portfolio Manager registered with Wolverton Securities Ltd. and over the course of his career, he has been instrumental in assisting in financings and M&A activity worth over \$1 billion in transaction value.

Leadership Team (Continued)

Dr. Andrew J. Ramcharan, Ph.D. and M.Sc. in Mining Engineering and Mineral Economics, Advisor to the Board

Dr. Ramcharan has an extensive background in exploration, project evaluation, investment banking and corporate development spanning over twenty years. Dr. Ramcharan recently was the Executive Vice President, Corporate Development for Roscan Gold Corp. where he has been instrumental in raising over \$40 million and a five-fold increase in market valuation of over \$100 million in 14 months. In a similar role with IAMGOLD Corp as Manager of Corporate Development, Dr. Ramcharan was involved with raising over \$600 million in equity and over \$800 million in project acquisitions. Dr. Ramcharan has also held senior investment banking roles, including Sprott Resource and Resource Capital Funds, where he performed over 300 project evaluations and numerous debt and equity financings valued over \$1 billion. Dr. Ramcharan holds a Ph.D. and M.Sc. in Mining Engineering and Mineral Economics, and attended the Colorado School of Mines, University of Leoben, and Harvard Business School Continuing Education Program. Dr. Ramcharan is a P.Eng in Ontario, a Registered Member of The Society for Mining, Metallurgy and Exploration (SME) in USA, a Fellow of both The Australasian Institute of Mining and Metallurgy (AusIMM) and The South African Institute of Mining and Metallurgy (SAIMM).

Dobie Lake Mineralization

- A past program of geological mapping and prospecting on what are now the Dobie Lake Claims has identified two, east-west trending copper-precious metal structural zones (the No.1 and No.2) and one north-easterly trending zone with EM+Copper Soil anomalies (the Canamiska Zone).
- The No. 1 Copper-Precious Metal Structure is delineated over a strike length of 3,500 m (3.5 k) and varies in width from 18m in the west to 45m in the east.
 - Massive sulphide horizons In the No. 1 Structure occur In Pit 1 at the Main Showing in the east. A 2.4m channel sample containing some massive sulphide **assayed 6.78% copper and 60 g/t silver**. Gold values of up to 0.03 oz per ton (0.94 g/t) were returned from some samples in this area.

Historical Results Disclaimer

The historical results shown in this presentation have been obtained from a search of the Ontario Ministry of Northern Development Mines and Energy (MNDM) Assessment files and were reviewed by James R Atkinson, M. Sc., P. Geo., Certified Professional Geologist who is a Qualified Person in accordance with NI 43-101 reporting standards. The information is considered reliable as far as can be determined but should not be relied upon.

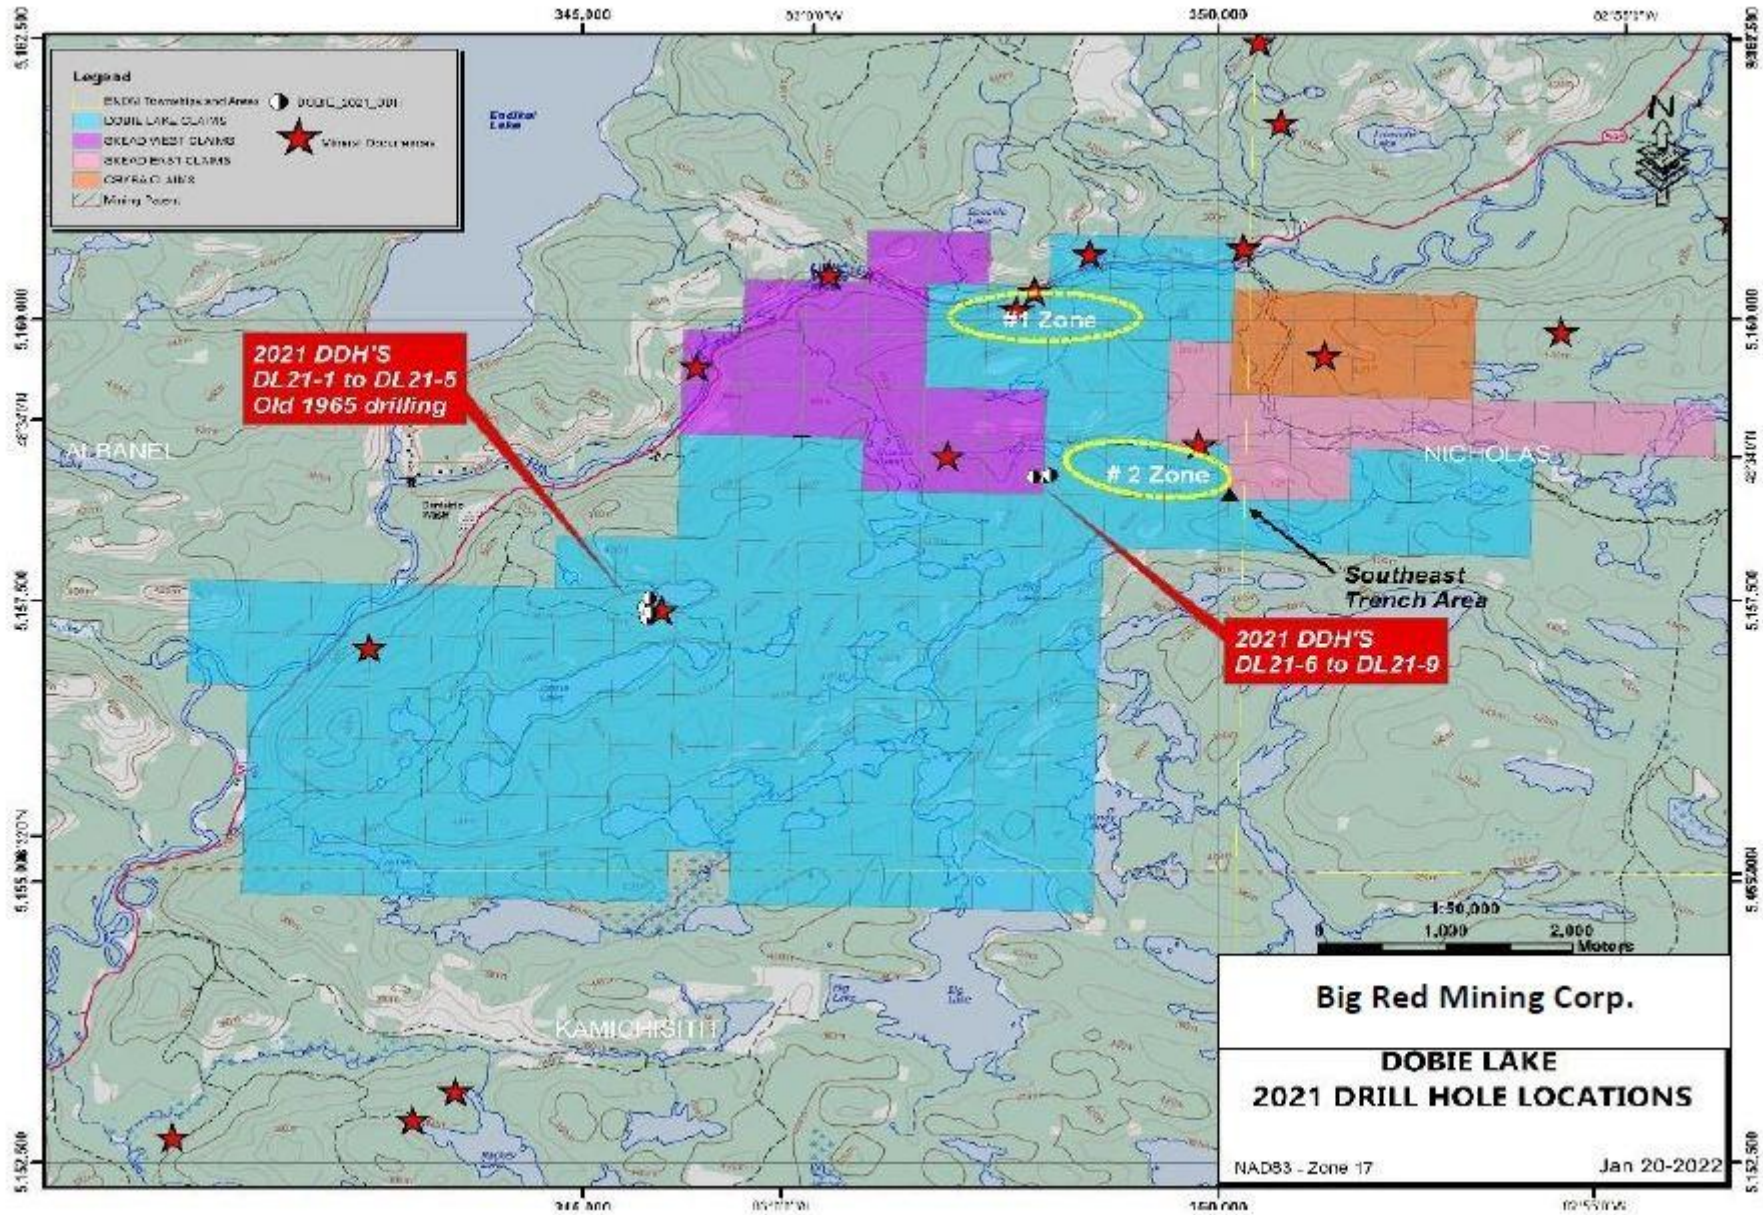

Dobie Lake Mineralization (Continued)

- The No. 2 Copper Structure consists of mainly quartz-carbonate veining hosted by sheared and chloritized siltstone and conglomerate. The zone measures at least 1,340 m long (east-west).
 - The extension of the zone to the east has recently been confirmed by prospecting. The so-called Southeast Trench in this zone, gave (historical) **1.83% copper** over a 1.2 m channel of chalcopyrite-rich quartz veining.
- The Canamiska Zone is a 3,000 m long EM conductor and copper in soil geochemical zone.
 - Other known copper-precious metal zones on the Dobie Lake Property Include the Canamiska Zone, a 3000m long EM conductor and copper in soil geochemical zone. The best reported historical drill intersection along this zone was **1.44% copper** over 3.81m. Some narrower sections contain in excess of **4% copper**.
 - In the same area other good grade copper intersections were obtained including a Hole that averaged **1.82% Copper over 2.3m**.

STATUTORY RESCISSION RIGHTS FOR ONTARIO

SECURITIES LEGISLATION IN CERTAIN OF THE CANADIAN PROVINCES PROVIDES PURCHASERS OF SECURITIES PURSUANT TO AND OFFERING MEMORANDUM (SUCH AS THIS PRESENTATION) WITH A REMEDY FOR DAMAGES OR RESCISSION, OR BOTH, IN ADDITION TO ANY OTHER RIGHTS THEY MAY HAVE AT LAW, WHERE THE OFFERING MEMORANDUM AND ANY AMENDMENT TO IT CONTAINS A “MISREPRESENTATION”. WHERE USED HEREIN, “MISREPRESENTATION” MEANS AN UNTRUE STATEMENT OF A MATERIAL FACT OR AN OMISSION TO STATE A MATERIAL FACT THAT IS REQUIRED TO BE STATED OR THAT IS NECESSARY TO MAKE ANY STATEMENT NOT MISLEADING IN LIGHT OF THE CIRCUMSTANCES IN WHICH IT WAS MADE. THESE REMEDIES, OR NOTICE WITH RESPECT TO THESE REMEDIES, MUST BE EXERCISED OR DELIVERED, AS THE CASE MAY BE, BY THE PURCHASER WITHIN THE TIME LIMITS PRESCRIBED BY APPLICABLE SECURITIES LEGISLATION.

SECTION 130.1 OF THE SECURITIES ACT (ONTARIO) PROVIDES THAT EVERY PURCHASER OF SECURITIES PURSUANT TO AN OFFERING MEMORANDUM (SUCH AS THIS PRESENTATION) SHALL HAVE A STATUTORY RIGHT OF ACTION FOR DAMAGES OR RESCISSION AGAINST THE ISSUER AND ANY SELLING SECURITY HOLDER IN THE EVENT THAT THE OFFERING MEMORANDUM CONTAINS A MISREPRESENTATION. A PURCHASER WHO PURCHASES SECURITIES OFFERED BY THE OFFERING MEMORANDUM DURING THE PERIOD OF DISTRIBUTION HAS, WITHOUT REGARD TO WHETHER THE PURCHASER RELIED UPON THE MISREPRESENTATION, A RIGHT OF ACTION FOR DAMAGES OR, ALTERNATIVELY, WHILE STILL THE OWNER OF THE SECURITIES, FOR RESCISSION AGAINST THE ISSUER AND ANY SELLING SECURITY HOLDER PROVIDED THAT:

- (A) IF THE PURCHASER EXERCISES ITS RIGHT OF RESCISSION, IT SHALL CEASE TO HAVE A RIGHT OF ACTION FOR DAMAGES AS AGAINST THE ISSUER AND THE SELLING SECURITY HOLDERS, IF ANY;
- (B) THE ISSUER AND THE SELLING SECURITY HOLDERS, IF ANY, WILL NOT BE LIABLE IF THEY PROVE THAT THE PURCHASER PURCHASED THE SECURITIES WITH KNOWLEDGE OF THE MISREPRESENTATION;
- (C) THE ISSUER AND THE SELLING SECURITY HOLDERS, IF ANY, WILL NOT BE LIABLE FOR ALL OR ANY PORTION OF DAMAGES THAT IT PROVES DO NOT REPRESENT THE DEPRECIATION IN VALUE OF THE SECURITIES AS A RESULT OF THE MISREPRESENTATION RELIED UPON; AND
- (D) IN NO CASE SHALL THE AMOUNT RECOVERABLE EXCEED THE PRICE AT WHICH THE SECURITIES WERE OFFERED.

SECTION 138 OF THE SECURITIES ACT (ONTARIO) PROVIDES THAT NO ACTION SHALL BE COMMENCED TO ENFORCE THESE RIGHTS MORE THAN:

- (A) IN THE CASE OF AN ACTION FOR RESCISSION, 180 DAYS AFTER THE DATE OF THE TRANSACTION THAT GAVE RISE TO THE CAUSE OF ACTION; OR
- (B) IN THE CASE OF AN ACTION FOR DAMAGES, THE EARLIER OF:
 - (I) 180 DAYS AFTER THE DATE THAT THE PURCHASER FIRST HAD KNOWLEDGE OF THE FACTS GIVING RISE TO THE CAUSE OF ACTION; OR
 - (II) THREE YEARS AFTER THE DATE OF THE TRANSACTION THAT GAVE RISE TO THE CAUSE OF ACTION.

THIS PRESENTATION IS BEING DELIVERED IN CANADA IN RELIANCE ON THE EXEMPTION FROM THE PROSPECTUS REQUIREMENTS CONTAINED UNDER SECTION 2.3 OF NI 45-106 (THE “ACCREDITED INVESTOR EXEMPTION”). THE RIGHTS REFERRED TO IN SECTION 130.1 OF THE SECURITIES ACT (ONTARIO) DO NOT APPLY IN RESPECT OF AN OFFERING MEMORANDUM (SUCH AS THIS PRESENTATION) DELIVERED TO A PROSPECTIVE PURCHASER IN CONNECTION WITH A DISTRIBUTION MADE IN RELIANCE ON THE ACCREDITED INVESTOR EXEMPTION IF THE PROSPECTIVE PURCHASER IS:

- (A) A CANADIAN FINANCIAL INSTITUTION OR A SCHEDULE III BANK (EACH AS DEFINED IN NI 45-106);
- (B) THE BUSINESS DEVELOPMENT BANK OF CANADA INCORPORATED UNDER THE BUSINESS DEVELOPMENT BANK OF CANADA ACT (CANADA); OR
- (C) A SUBSIDIARY OF ANY PERSON REFERRED TO IN PARAGRAPHS (A) AND (B), IF THE PERSON OWNS ALL OF THE VOTING SECURITIES OF THE SUBSIDIARY, EXCEPT THE VOTING SECURITIES REQUIRED BY LAW TO BE OWNED BY DIRECTORS OF THAT SUBSIDIARY.
