MUD ACTIVITY

Manhole Replacement

A manhole at the intersection of Braxton Bragg and River Plantation Drive has been replaced after the original structure collapsed and began restricting flow.

Our operating company removed the damaged unit and installed a new concrete manhole designed to provide long-term durability and reliable performance for decades to come.

Motor Control Center Panels

New Motor Control Center (MCC) panels have been installed at the sewage treatment facility. The project included replacing the outdated panels and upgrading electrical systems throughout the entire site.

These new MCC panels are a critical component of the facility's operations and will help improve reliability and efficiency.

Because the facility is jointly used by East Plantation MUD, the project costs are shared between both MUDs.

NEWS

MUD Directors Election

Upcoming Board Election

Five candidates have registered to run for the three expiring board positions. The election will be held on May 2, 2026, at Cornerstone Church, with early voting beginning April 20, 2026.

Meet-the-Candidates Event

A meet-the-candidates session will take place at Cornerstone Church on April 17, 2026, from 6:30–8:30 p.m.

Each candidate will have three minutes to introduce themselves and share their ideas.

Members of the public may ask one question per person (up to three minutes), with the option for one follow-up question (up to two minutes).
