BOOKKEEPER'S REPORT | 09/28/2023

Spotlight On Long Term Planning & Balancing Revenues

Most Districts have 2 major revenue streams that can fund District Operations. These are Water & Wastewater Revenues and M&O Property Tax Revenues. In addition, most Districts have multiple 'Other' Revenue streams that can contribute, but are usually not as significant, unless the 'Other' is extraordinary Sales Tax Revenue. For long term planning, ensuring your M&O Property Tax and Water & Wastewater revenues are covering at least 90% of your expenses is prudent. Investment revenues are unpredictable, Tap Connection revenue disappears as you are built out and Sales Tax can ebb and flow based on the economy. Fixed expenses need fixed revenues. Balancing these revenues to ensure you are covering all expenses as well as building proper reserves should be an ongoing exercise for your District.

RIVER PLANTATION MUNICIPAL UTILITY DISTRICT ENGINEER'S REPORT

VSE Project No. 32000-000-0-DST September 28, 2023, 6:30 p.m.

Engineering Representative: Taylor J. Reed, P.E.

Directors: Julie Gilmer, President

Tim Goodman, Vice President Tom Vandever, Treasurer Betty Brown, Secretary

Karl Sakocius, Asst. Secretary

5. Items for Discussion:

I. Permits

- A. WWTF Discharge Permit Renewal (Expires September 2023)
 - 1. Wastewater permit renewal has been submitted.
- B. Storm Water Quality Management Plan MS4 Permit (Expires January 2024)
 - 1. SWMP annual report has been submitted.
- C. Water Plant No. 1 Water Well No. 1 Testing
 - 1. Testing and Inspection due January 12, 2026
- D. Emergency Operation Information
 - 1. Update as necessary

II. Design Projects

- A. Joint Projects
 - 1. East Ditch FEMA Work
 - a) Under review with FEMA
 - 2. East Ditch Maintenance
 - a) Desilt construction substantially complete.

3. WWTP Rehabilitation and Electrical Upgrades

a) Design underway.

4. Holly Springs Drainage Issue

a) EPUD has been discussing the options. Attached are the two cost estimates.

B. District Projects

1. District Wide Drainage Study

a) Preliminary design phase is underway.

2. Sanitary Sewer Rehabilitation Phase 2

a) Design underway

3. Sanitary Sewer Manhole Rehabilitation Phase 1

a) Design underway

C. Sanitary Sewer Clean & Televise Phase 1 - (Pro-Pipe \$55,351.00)

1. We finally received all the missing information. Attached is pay application no. 1 and final in the amount of \$48,795.70 that we recommend payment.

D. Storm Sewer Televise Phase 1 - (Pro-Pipe \$48,986.55)

1. We finally received all the missing information. Attached is pay application no. 1 and final in the amount of \$43,536.14 that we recommend payment.

E. Sanitary Sewer Phase 1 – Rehabilitation (Texas Pride \$532,063)

1. Construction underway. We have no pay application this month. Attached is a report of the ongoing progress.

F. Charleston Park Irrigation

1. Construction underway

G. Storm Sewer Phase 1 Rehabilitation

1. The contractor is continuing to work throughout the District. Attached is a progress map and report of the ongoing sections being worked on.

River Plantation MUD Engineer's Report September 28, 2023 Page **3** of **3**

H. Water Plant No. 2 Electrical Upgrades

1. Construction underway. Contractor has been working to place all conduits. Attached is a report of the ongoing progress.

III. Other Matters

- A. 10 Year CIP
 - 1. Attached is an updated CIP for review.

Board of Directors River Plantation Municipal Utility District Montgomery County, Texas

Members of the Board:

I am pleased to serve as auditor for River Plantation Municipal Utility District (the "District") for the years ended September 30, 2023 and September 30, 2024. This letter will confirm our understanding of the arrangements for this engagement.

Audit Scope and Objectives

I will audit the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information, and the disclosures, which collectively comprise the basic financial statements of the District as of and for the years ended September 30, 2023 and September 30, 2024. Accounting standards generally accepted in the United States of America provide for certain required supplementary information (RSI) such as Management's Discussion and Analysis and Schedule of Revenues, Expenditures and Changes in Fund Balance, Budget and Actual, General Fund, to supplement the District's basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. As part of my engagement, I will apply certain limited procedures to the District's RSI in accordance with auditing standards generally accepted in the United States of America. These limited procedures will consist of inquiries of management regarding the methods of preparing the information and comparing the information for consistency with management's responses to my inquiries, the basic financial statements, and other knowledge I obtained during my audit of the basic financial statements. I will not express an opinion or provide any assurance on the information because the limited procedures do not provide me with sufficient evidence to express an opinion or provide any assurance.

I have also been engaged to report on additional supplementary information other than RSI, required by the Texas Commission on Environmental Quality, that accompanies the District's financial statements. I will subject the additional supplementary information to the auditing procedures applied in my audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America, and I will provide an opinion on it in relation to the financial statements as a whole. Certain supplementary information accompanying the basic financial statements will not be subjected to the auditing procedures applied in the audit of the financial statements and will be marked "unaudited."

The objectives of my audit are to obtain reasonable assurance as to whether the financial statements as a whole are free from material misstatement, whether due to fraud or error; issue an auditor's report that includes my opinion about whether your financial statements are fairly presented, in all material respects, in conformity with GAAP and report on the fairness of the supplementary information referred to in the second paragraph when considered in relation to the financial statements as a whole. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with auditing standards generally accepted in the United States of America will always detect a material misstatement when it exists. Misstatements, including omissions, can arise from fraud or error and are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment of a reasonable user made based on the financial statements.

Auditor's Responsibilities for the Audit of the Financial Statements

I will conduct my audit in accordance with auditing standards generally accepted in the United States of America and will include tests of your accounting records and other procedures I consider necessary to enable me to express such opinions. As part of an audit in accordance with auditing standards generally accepted in the United States of America, I exercise professional judgment and maintain professional skepticism throughout the audit.

I will evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management. I will also evaluate the overall presentation of the financial statements, including the disclosures, and determine whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation. I will plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether from (1) errors, (2) fraudulent financial reporting, (3) misappropriation of assets, or (4) violations of laws or governmental regulations that are attributable to the government or to acts by management or employees acting on behalf of the government.

Because of the inherent limitations of an audit, combined with the inherent limitations of internal control, and because I will not perform a detailed examination of all transactions, there is an unavoidable risk that some material misstatements may not be detected by me, even though the audit is properly planned and performed in accordance with auditing standards generally accepted in the United States of America. In addition, an audit is not designed to detect immaterial misstatements or violations of laws or governmental regulations that do not have a direct and material effect on the financial statements. However, I will inform the appropriate level of management of any material errors, fraudulent financial reporting, or misappropriation of assets that comes to my attention. I will also inform the appropriate level of management of any violations of laws or governmental regulations that come to my attention, unless clearly inconsequential. My responsibility as auditors is limited to the period covered by my audit and does not extend to any later periods for which I was not engaged as auditor.

I will also conclude, based on the audit evidence obtained, whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the government's ability to continue as a going concern for a reasonable period of time.

My procedures will include tests of documentary evidence supporting the transactions recorded in the accounts, tests of the physical existence of inventories, and direct confirmation of receivables and certain assets and liabilities by correspondence with selected customers, creditors, and financial institutions. I will also request written representations from your attorneys as part of the engagement.

Audit Procedures - Internal Control

I will obtain an understanding of the government and its environment, including internal control relevant to the audit, sufficient to identify and assess the risks of material misstatement of the financial statements, whether due to error or fraud, and to design and perform audit procedures responsive to those risks and obtain evidence that is sufficient and appropriate to provide a basis for my opinions. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentation, or the override of internal control. An audit is not designed to provide assurance on internal control or to identify deficiencies in internal control. Accordingly, I will express no such opinion. However, during the audit, I will communicate to management and those charged with governance internal control related matters that are required to be communicated under AICPA professional standards.

I have identified the following significant risks of material misstatement as part of my audit planning: The limited technical ability and therefore inability to make required material adjustments to the District's financial records and to prepare or technically review the District's financial statements by those charged with governance are considered material weaknesses in internal control.

Audit Procedures - Compliance

As part of obtaining reasonable assurance about whether the financial statements are free of material misstatement, I will perform tests of the District's compliance with the provisions of applicable laws, regulations, contracts, and agreements. However, the objective of my audit will not be to provide an opinion on overall compliance and I will not express such an opinion.

Other Services

I will also prepare the financial statements of the District in conformity with accounting principles generally accepted in the United States of America based on information provided by you.

I will perform the services in accordance with applicable professional standards. The other services are limited to the financial statement services previously defined. I, in my sole professional judgment, reserve the right to refuse to perform any procedure or take any action that could be construed as assuming management responsibilities.

Responsibilities of Management for the Financial Statements

My audit will be conducted on the basis that you acknowledge and understand your responsibility for designing, implementing, and maintaining internal controls relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error, including monitoring ongoing activities; for the selection and application of accounting principles; and for the preparation and fair presentation of the financial statements in conformity with accounting principles generally accepted in the United States of America.

Management is responsible for making drafts of financial statements, all financial records, and related information available to me and for the accuracy and completeness of that information (including information from outside of the general and subsidiary ledgers). You are also responsible for providing me with (1) access to all information of which you are aware that is relevant to the preparation and fair presentation of the financial statements, such as records, documentation, identification of all related parties and all related-party relationships and transactions, and other matters; (2) additional information that I may request for the purpose of the audit; and (3) unrestricted access to persons within the government from whom I determine it necessary to obtain audit evidence. At the conclusion of my audit, I will require certain written representations from you about the financial statements and related matters.

Your responsibilities include adjusting the financial statements to correct material misstatements and confirming to me in the management representation letter that the effects of any uncorrected misstatements aggregated by me during the current engagement and pertaining to the latest period presented are immaterial, both individually and in the aggregate, to the financial statements of each opinion unit taken as a whole.

You are responsible for the design and implementation of programs and controls to prevent and detect fraud, and for informing me about all known or suspected fraud affecting the government involving (1) management, (2) employees who have significant roles in internal control, and (3) others where the fraud could have a material effect on the financial statements. Your responsibilities include informing me of your knowledge of any allegations of fraud or suspected fraud affecting the government received in communications from employees, former employees, grantors, regulators, or others. In addition, you are responsible for identifying and ensuring that the government complies with applicable laws and regulations.

You are responsible for the preparation of the supplementary information in conformity with accounting principles generally accepted in the United States of America. You agree to include my report on the supplementary information in any document that contains, and indicates that I have reported on, the supplementary information. You also agree to include the audited financial statements with any presentation of the supplementary information that includes my report thereon or make the audited financial statements readily available to users of the supplementary information no later than the date the supplementary information is issued with my report thereon. Your responsibilities include acknowledging to me in the representation letter that (1) you are responsible for presentation of the supplementary information in accordance with GAAP; (2) you believe the supplementary information, including its form and content, is fairly presented in accordance with GAAP; (3) the methods of measurement or presentation have not changed from those used in the prior period (or, if they have changed, the reasons for such changes); and (4) you have disclosed to me any significant assumptions or interpretations underlying the measurement or presentation of the supplementary information.

You agree to assume all management responsibilities for the financial statement preparation services and any other nonattest services I provide; oversee the services by designating an individual, preferably from senior management, with suitable skill, knowledge, or experience; evaluate the adequacy and results of the services; and accept responsibility for them.

Engagement Administration, Fees, and Other

I understand that your consultants or employees will prepare all cash, accounts receivable, or other confirmations and schedules I request and will locate any documents selected by me for testing.

Mark Eyring is the engagement partner and is responsible for supervising the engagement and signing the report or authorizing another individual to sign it. The Annual Audit Report must be filed within 135 days of the District's year end. In order to meet this requirement, I will complete my audit and will issue a draft of the Annual Audit Report to the Board of Directors within 45 days after the District's records are available for audit. If, for any reason beyond my control, I foresee that the 45 day period will exceed 120 days past the District's year end, I will immediately inform you of the reasons for the situation and the actions I have taken, or will take, to complete the audit within the 120 day period.

I estimate my fee for each year to be approximately \$12,300 including report production expenses. The estimated fees are computed on the assumption that I do not encounter extraordinary circumstances which would cause a material extension of required procedures. If such were the case, I would consult with you before performing additional procedures. The bill for services will be due when rendered.

Reporting and Other

I will issue a written report upon completion of my audit of the District's financial statements which will also address other information in accordance with AU-C 720, The Auditor's Responsibilities Relating to Other Information Included in Annual Reports. My report will be addressed to those charged with governance of the District. Circumstances may arise in which my report may differ from its expected form and content based on the results of my audit. Depending on the nature of these circumstances, it may be necessary for me to modify my opinions, add a separate section, or add an emphasis-of-matter or other-matter paragraph to my auditor's report, or if necessary, withdraw from this engagement. If my opinions are other than unmodified, I will discuss the reasons with you in advance. If, for any reason, I am unable to complete the audit or are unable to form or have not formed opinions, I may decline to express opinions or withdraw from this engagement.

I appreciate the opportunity to be of service to the District and believe this letter accurately summarizes the significant terms of my engagement. If you have any questions, please let me know. If you agree with the terms of my engagement as described in this letter, please sign the attached copy and return it to me.
