## WALK IN CHAMBER FOR MULTIPLE APPLICATIONS

Sreekara EnviroTech Walk-In Temperature/Humidity Test Chambers offer the most flexibility in accommodating complete interior work space. Pre-engineered conditioning systems and prefabricated panels can be assembled to meet virtually any test or any size requirement. We use the right air conditioning systems for easy installation without taking up valuable workspace in your chamber. Applications include, but are not limited to, Automotive testing, Electronic testing, Telecommunications testing, Aerospace testing, Material storage, Coating preparation, Biomedical storage, research, Packaging materials evaluation, Seeds storage, Seeds germination, Plant growth & Cultivation. Temperature and climate working range have been designed to fulfill all relevant standards. Complete insight of the components which are used ensured for long reliability.
