

Maria's programme covered so much from marketing to pricing to mindset, everything I needed to progress in my business.

Maria is very caring and supportive and generous with her time and I loved the bonus of a branding session with her which was both very practical and enjoyable.

Using Maria's system for packaging my services has been extremely useful as well as the pricing session and having Maria championing you, on your side, supporting you and your worth is priceless.

Having a coach like Maria is what you need for your business if you want to work smarter, be motivated and held accountable and work on what is currently missing in your systems, packages, messaging that can move you onwards and upwards in attracting your ideal clients.

– YS, *International Communication Consultant*

I'm Maria, and I help expert service providers **confidently price** and **sell their high-value offers, attract premium clients** who are ready to invest, and **build a business that reflects their true value**, without sacrificing freedom, integrity, or quality of life.
