

## **Getting credit for your sales!**

**When you have made a sale to someone then it's time to accept payment. They must have a credit or debit card to pay at this time. Go through the website, [www.oldsoutherncandleworks.com](http://www.oldsoutherncandleworks.com) and fill out all their information. In the email section you will fill out their email and then move over one space and put the employee ID number we will assign you after purchasing your sampler set. This allows us to ensure you get paid for every single product you sell! For any technical glitches message us at 757-377-0563. If you cannot get it to go through please take the customers name and cell number and list of candles and message them to our number. Please do not message card information. We will contact the customer, process their order that day and email you confirmation so you'll get credit for the transaction. Computers fail us at times. Never worry about that, just have fun promoting the product. Thank you for helping us show the country our amazing candles!**
