

Future for Iringa Street Children

Welcome to the March FISCH BITES. This month the UK celebrates Mother's Day. We believe every FISCH child has the right to a caring family and we endeavour to place each child back with their relatives as well as support them with their education and physical welfare.

Imani

Imani is a deaf girl who has recently received a hearing aid from Derek and Ruth Osborn and the Team. She is entering Form III this year, The hearing aid has made a great difference to her learning at school, evident from her exam results in 2011. We wish the best for Imani and hope the hearing aid serves her well.

FISCH Football Programme

FISCH has started a football team programme upon request by the kids and youth. The FISCH Team are currently looking into buying some football jerseys for the kids.

FISCH Choir

The choir continues to meet every Saturday and Sunday for praise songs and practice. Hallelujah!

FISCH on Air Part 2!!

Do you remember reading in the February Bites that a journalist from Overcomers Radio Iringa visited the Saturday Club at the Drop-In-Centre on the 28th Jan? The radio station invited calls in from the public but there were so many that the radio station has had to organise another show, and asked Mote in for a Q&A session! Many people were congratulating Mote and the FISCH Team. Mote explained that it's about the community all working together and asked people to direct any street children they meet to FISCH. Well done the Tanzania FISCH Team!!

"For you created my inmost being; you knit me together in my mother's womb" - Psalm 139.13
