INCREDIBLY LIT VISUALS

# BIG

## A NEW DIMENSION

Are you ready for the  
biggest mobile lighting box?

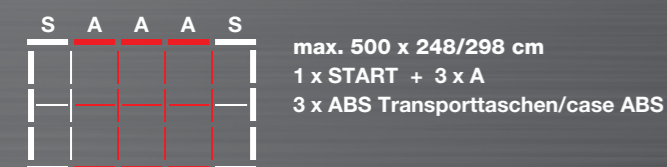

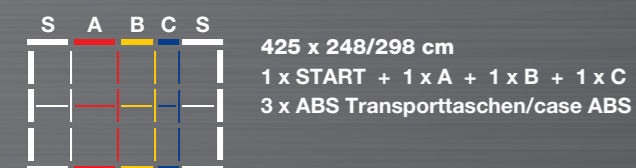

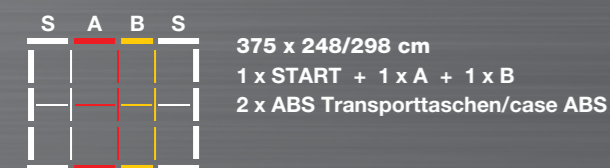

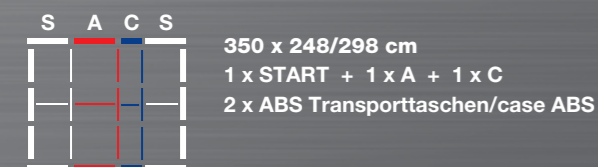

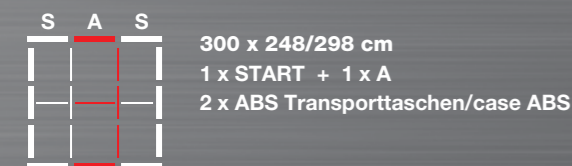

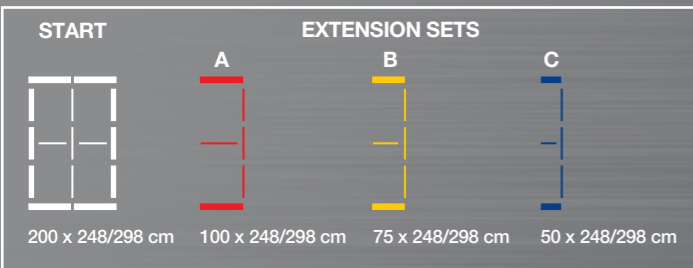

With a height of up to three meters and at five meters wide, the myLEDGO XL is not only the largest portable lighting box on the market, but its modular system facilitates a multitude of application and design options, utilizing just a few basic elements. And like all myLEDGO XL products, myLEDGO XL is conveniently stowed in its hard-case and can be transported in any car and set up without tools.

# NO LIMITS

## Extend BIG LEDUP™ with any number of modular components

A starter module gets you started in the myLEDGO XL world. Extension sets are available in different widths (50, 75 and 100 centimeters) and maximize your options. You may choose between heights of 2.5 or 3 meters and twelve options in width, ranging from 2 to 5 meters. Simply insert the extension sets between the two starter modules (no tools required) to adapt your myLEDGO XL to any space requirement.

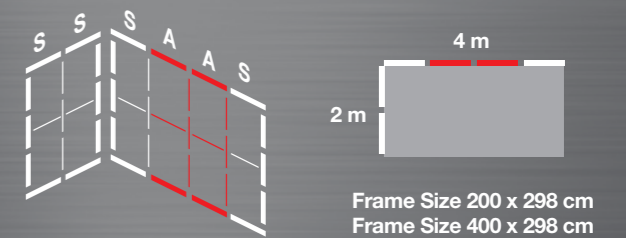

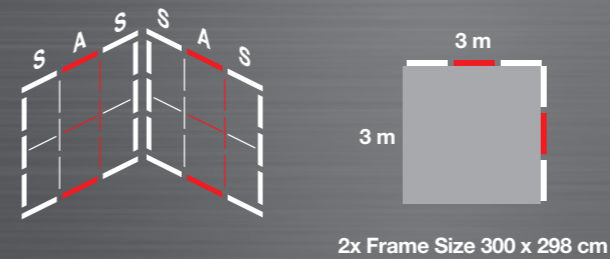

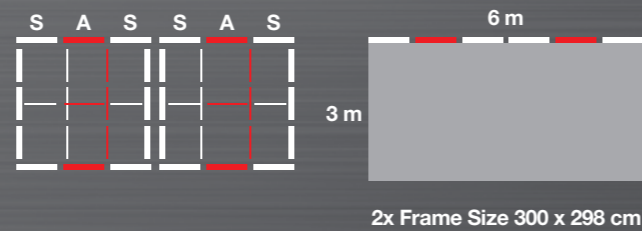

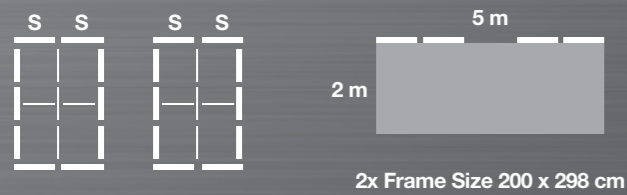

# VARIABLE SPACES

Discover the diverse variations of space concepts with myLEDGO XL

myLEDGO XL's solo unit is a powerful contender, while the combination of several units makes it unbeatable: combine multiple display units to create your desired wall length, or L- or U-shapes. Inspire your clients with ever-new versatility.

Unique, varied space concepts are possible with just two starter modules and two extension sets. Both the 2.5 and 3 meter height units can also be reduced to 2 meters.

## BOUNDLESS MOBILITY

### Easily packed, myLEDGO XL

Once packed in the handy ABS-cases, the myLEDGO XL is transformed to a length of only 1.2 meters, and so fits in any car. Multiple systems can be cost efficiently shipped on Euro pallets. Each part is numerically marked and thus finds the right spot in the foam cushioned, hard shell cases. At 28kg, myLEDGO XL, is very light. The cases are wheeled and have handles, making transport a breeze.

# READY TO GO

Assemble BIG LEDUP™  
quickly, anywhere you  
need it

The myLEDGO XL consists of just a few components and does not require tools nor significant strength for assembly, which facilitates quick and easy use. Simply remove the components from the convenient case, snap them together, screw on the bases - ready! Silicone Edge Graphic profiles are user friendly, easily unfold, interchangeable and are a snap to mount to display your message.

## TECH- NOLOGY OF THE FUTURE

Put on best quality and  
perfect construction

myLEDGO XL's display benefits from both advanced static design and innovative Osram LED technology and features solid stability and wide-spectrum illumination, despite its striking size. The system parts comprises high-end aluminum components, while new lens technology guarantees even and shadow-less illumination across the entire area. myLEDGO XL's globally patented spring ball system guarantees easy assembly.

[Frame Size 500 x 300 cm]

Frame Size 300 x 248 cm

## PATENTED SPRING BALL SYSTEM

You can assemble myLEDGO XL without tools, thanks to our patented myLEDGO XL system

No tools are needed to assemble . Color coded guides intuitively lead you through the assembly process. The patented spring ball system and carefully finished aluminum sections slide together effortlessly, transforming into an elegant, yet highly stable, illuminated frame. Two screws, inserted by hand, connect the frame to solid base elements. The fully round sewn siliconkeder ensures wrinkle-free display of the graphic.
