About the Lightbox Double 120

The double-sided illuminated profile was designed especially for illuminating medium-sized textile prints. Available with side lighting and backlit illumination. This profile is suitable for freestanding and suspended solutions.

The advantages

- ✓ Suitable for medium-sized formats
- ✓ LED technology: Edge-lit
- ✓ Even light distribution
- ✓ Two-year warranty

Mounting

Freestanding

Freestanding frame with a textile on both sides.

Attached to the ceiling

Frames suspended from the ceiling. Both horizontal as well as vertical suspension is possible.

Finish

Closed

An even finish. If desired, holes can be drilled in the profile so that accessories can be attached.

Illumination

Edge-lit

- lit from the edge
- Good quality/price ratio
- Compactly packed, economically transportable
- Relatively low power consumption

LED on Dibond

- Even light distribution due to backlighting
- Suitable for small and medium sized frames
- Narrow frames possible
- Quick installation due to pre-assembled frame

Dynamic LED

- Available in RGB and white
- Many application possibilities
- Infinite flexibility with your own animations
- Easily adjust light intensity and colours

Lightcolour

6500K

Bright white (daylight).

Stabilizers

Stabilizers

In order to guarantee the stability of the frame, stabilizers must be placed in the frame. This way the construction is sturdy.
