The North American Trailer Dealers Association is a professional business association in North America that serves the light and medium duty trailer dealers and brings them together as a unified team. For years, the trailer industry has struggled hard and waited patiently to gain financial strength, professional credibility and industry recognition. Now, the wait is finally over! By uniting the trailer dealers within a professional business association, NATDA is able to provide dealers with only the very best benefits, programs and education available.

The NATM Compliance Verification Program (CVP) is a mandatory program for all NATM member trailer manufacturers. This program involves multiple components, all of which are geared toward creating safer trailers and in turn, safer roadways.

All NATM trailer manufacturer members are required to successfully complete a compliance consultation. Once a member has done so, they are able to purchase and place NATM Compliance Decals on their trailers.
