7. NOVICE ADULT MEANS: the same as #6 above. The set time for Adult Novice barrels will be 25 seconds and poles 27 seconds. Also this class is based on the rider's ability not the horse. There are no trainers allowed in this class or any other rider that rides in open barrel racing events such as NBHA, AW etc.
8. Coaches/Trainers are only allowed in the arena during Beginner & Novice classes or if they receive prior approval from the gymkhana committee.
9. In Beginner and Novice classes No personal timing or coaching to speed up or slow down during the pattern will be allowed. The rider will be disqualified from the class if we see this. Committee decision is final.

31. All Western Saddle Club Arena rules must be followed.
32. If a timer failure occurs, the rider has the option of up to two re-rides. If during the first re-ride an obstacle is knocked over, the rider may take a second re-ride. If the second re-ride is taken, it voids the first re-ride and the rider must take the time given during the second re-ride. When the first re-ride is successful (no obstacles were knocked over) the rider is required to take that time and a second re-ride is not allowed.
33. End of the day high point tie breakers for Novice classes will be the lowest total combined points of all 3 events and a no time will count as 99.99.
34. End of the day high point tie breakers for the age classes will be the rider with the fastest time in an event which will be picked at the beginning of the day as our tie breaker event.
35. A BROKEN PATTERN (being defined as any illegal crossover) constitutes a NO TIME

Explanation of broken pattern:

A broken pattern occurs if the rider fails to complete the designated pattern or if the rider commits any cross over (completed circle) which is not in the specified pattern. Broken patterns often occur during the pole bending patterns when the rider's horse goes past one of the poles in the middle part of the pattern. Therefore, we have used this pattern as an example to explain the right way and the wrong way to correct the pattern, and to illustrate what determines an "illegal crossover". We have included a diagram with these rules. Diagram # 1 illustrates the proper pattern. Diagram # 2 illustrates a rider who has gone past a pole but corrects the pattern in the proper manner and does not commit an illegal crossover. Diagram # 3 illustrates a rider who has gone past a pole and while trying to correct the pattern turns the horse in the wrong direction causing the horse to complete an additional turn that is not specified in the pattern. To explain this further, please note that each designated circle or crossover is highlighted in red on diagram number one, for a total of 4 legal crossovers. In diagram two, although the rider went past the pole, it was corrected in a manner which maintained the "legal" 4 crossovers. In diagram number three the rider turned the horse in a manner which caused the horse to complete an additional turn and you will be able to count "5" crossovers.....hence, a broken pattern.

We use this method so that a broken pattern can be easily defined by everyone. The judge or participants can simply retrace the rider's steps and simply count the number of crossovers that were executed. This method is no different than if you were running the clover leaf barrel pattern and completed four circles rather than the legal three circles (either by circling a barrel twice, or allowing the horse to complete a turn in front of or past a barrel). Also, please note that in patterns where there are no circles in the pattern, such as the "streaking poles" or "flag race", (which is run in a horse shoe shape), if the rider goes past an obstacle they must again correct the pattern in a manner which does not allow the horse to complete a full circle.....once an illegal turn is completed, a no time will be given. We want to make sure that everyone is able to understand the broken pattern rule, so please feel free to contact a gymkhana committee member if you have any questions.

36. GYMKHANA POINTS SYSTEM 1st place = 6 pts., 2nd place = 5 pts., 3rd place = 4 pts., 4th place = 3 pts., 5th place = 2 pts., 6th place = 1 pt.
