## **Swell**

**Barrel Aged Beer 12.0%**

Swell is a dark beer brewed specifically for barrel-aging; the recipe was developed to hold the flavours from the casks without being overwhelmed. It's rich, fruity and full of flavour. It has spent 11 months in a combination of casks from the Spirit of Yorkshire, each of which had previously held maturing spirit from the distillery, including a PX (Pedro Ximenez) cask which is extremely rare in the world of barrel-aging, as well as an STR cask (red wine cask which has been shaved, toasted and recharred to really enhance flavour and maturation). The bourbon casks were all from Distillery Projects 003, which won a Liquid Gold (95/100) award from Jim Murray in his 2020 Whisky Bible, unprecedented for a not-quite-whisky. Swell is the first in the Ebb and Flow series of barrel-aged beers from Wold Top Brewery. Future releases will explore different styles of beer, matured in different whisky cask types, all coming from the Spirit of Yorkshire Distillery.

Amazingly only 5 people alive know the secret recipe and we love this heritage. This gin has a clean, crisp, refreshing taste with notes of juniper, clove and cinnamon, though there are many more flavours to pick out.
