

Montana Census Tribal Week

**August 31-
September 4**

Hashtags to use:

#2020Census

#AccordingtoUs

#NativesCount

#IndianCountryCounts

As you know, responding to the 2020 Census is important for American Indian communities and can help ensure a better future for native people and future generations. **Join us as a co-host** next week as we do a social media push to raise awareness and increase self-response rate. Please commit to posting **at least once a day**, and sharing out our Facebook LIVE events on Social Distance Powwow.

Filling out the Census also allows Tribal Nations to own their narrative. In US History, stories of American Indians have often been told by outsiders. This is one chance to reclaim the story. We encourage you to use and fill in the phrase, “**According to us, we are...**” in all of your posts.

For ideas of what to post, and details of the Census themed week in Social Distance Powwow, [please click here.](#)
