Don't Get SHOCKED by Your Home's Electrical Needs

Buying an electric car or remodeling your kitchen? Talk to a licensed Electrician first!

Looking at doing some upgrades to your home or possibly purchasing a new electric vehicle? Whatever the case, the cost associated with how to power those bright and shiny dreams is rarely considered until it's too late.

Without a review of your home's electrical system, these purchases can turn from exciting to overwhelming when you realize the unexpected costs associated with powering them.

Applewood Plumbing Heating & Electric's licensed Electricians can help.

"The first thing to consider is the electrical panel," said Brian Bach, a 27-year veteran Electrician, without hesitation. **"There is a power limit to what a fuse box can handle.** If that panel isn't big or powerful enough, or there is no more room for additional fuses, the budget required for the project could come as a surprise to some homeowners."

In Colorado, sales for electric vehicles are up nearly 15% over

last year, and it's estimated that approximately 437,000 home charging units for electric vehicles will be needed by 2030 to meet growing demand, according to a report from the International Council on Clean Transportation. Toss in a kitchen or basement remodel and you have even more electrical challenges to consider!

Bach sees these dilemmas on a regular basis. "If you're adding a charging station for an electric vehicle, beginning a remodel, or looking to add in a hot tub and the power source is 200 feet away from where that power needs to be, how do you get that electricity from point A to point B?" These are the questions a licensed Applewood Electrician can determine in advance, so you don't get shocked by unexpected costs.

By getting an assessment of your home's electrical system ahead of making major decisions, you can save time and added costs. Applewood Plumbing Heating & Electric has top professionals available to assist you with your electrical review and upgrade needs.

Groundworks®

Foundation Solutions Crafted with Pride.

DAMAGED HOME?

Repair and protect your greatest asset today!

What was it that drew you to your home? Do you still love your house today, or have ugly wall cracks or leaking water changed your mind?

Groundworks can restore your home's health, safety, and longevity by permanently repairing damage to your basement, crawl space, foundation, or concrete.

Take a look around your home. Do you see any of these signs?

These symptoms mean there is a problem with your foundation, basement, crawl space, or concrete.

Your house relies on its foundation for stability, but it isn't perfect. It can easily sustain damage for many reasons, many of which boil down to the soil under and around your home.

The soil throughout Colorado, including Denver and Colorado Springs, has mostly clay elements including volatile bentonite clay. Clay soil can become unstable during:

- ▲ Drought
- ▲ Invasive tree root movement
- ▲ Floods

We have developed a variety of permanent repair solutions to meet your home's unique repair needs. These include:

- > Interior Drains
- > Sump Pumps
- > Dehumidifiers
- > Vapor Barriers
- > Pier Systems
- > Wall Repair Systems
- > Concrete Lifting

Your home can benefit from some TLC and a restored foundation, basement, crawl space, and concrete slabs.

Get started with mending the broken parts of your home today by contacting our friendly and knowledgeable staff to book a free inspection and repair estimate.

Does your tree service follow these principles?

Our "bottom up" approach is better for you, your family, your pets, your neighborhood & our environment.

We are committed to the very best organic & natural solutions with a bias against synthetics & pesticides whenever possible. We recommend fewer foliar sprays than other companies & prefer injecting over spraying whenever possible.

THE BETTER DIRECTORY

Once a year, The **REFERRED PROS** directory is delivered to single family homes in your community. The contractors listed have been vetted by our 3rd party research company. Our team is extremely selective about who we list in our directory and we continuously monitor the listed contractors to make sure they are measuring up to their reputations. The **FREE** County directory is an annual reputation-based resource designed to make it easy to find premier local contractors that are screened and work in your area. We are a local, women-owned and family operated company based here in Colorado.

Contractors must carry insurance and follow state requirements. **REFERRED PROS** is listed as a certificate holder to each contractor so we are notified if their state insurance requirements change or are cancelled.

State law requires a business to be electronically filed and we confirm on the state site they are in good standing.

We confirm Years in Business with the Secretary of State to make sure companies have a solid history in their communities.

We cross reference each company and list their proper state licensing numbers

We check and list each companies Better Business Bureau, Google & Facebook before mailing to local communities so homeowners can identify each company's/contractor's reputation online.

REFERRED PROS monitors calls as a 3rd party for quality assurance and a contractor displaying the "Gold Star" in the directory earned their status by achieving excellence in:

- Answering calls in a timely & professional manner
- Communicating respectfully & clearly in scheduling appointments
- Completing high quality work without complaints from consumers using the **REFERRED PROS** Directory

Every "Referred Pro" is as good as their last job!

If you have great experience, we want to hear about it and please send us a review to info@referredpros.com.

Also, incase you have a bad experience with one of the "Pros", contact us immediately at (303) 554-7010 or info@referredpros.com.

We will step in to make sure you are treated right.

Negatively reviewed Pros that don't resolve issues are simply kicked out!

Hi neighbors!

I know how hard it is to find good contractors. In 2011 our family moved into a house described as a “solid 70s build ready for your transformation.” We loved the character or “bones” of the house; We saw so much potential to make it our dream home. We have been transforming our home to modern contemporary ever since. We spent the first 10 years re-doing the interior, stripping it down to studs, building up sunken floors, new kitchen, bathrooms, vaulting ceilings etc. To support the work, we hired residential contractors to help us with the work from HVAC, carpenters, flooring specialists, drywallers, painters, plumbers, landscapers, electricians, handymen to fence builders. We have had some great experiences and, honestly, more than our share of horrible contractor experiences that no homeowner should have to deal with. For that reason, my husband, Sean, and I created the Referred Pros directory you hold in your hands. It is an annual free reputation-based county directory designed to make the process of finding the best and most reliable residential contractors in your community easy. Referred Pros is a local, women-owned and family operated company based here in Colorado. We are extremely selective about who we put in our directory and continuously monitor contractors to make sure they are living up the “Gold Star” status we expect of them.

We are not done with transforming this house and sometimes I wonder if we ever will be. I am glad to know that we now have a single, trusted source, the Referred Pros Directory, to go to when we need contractors again. I hope you find it helpful and welcome your feedback at info@referredpros.com
