How Do You Know if You Need Drain Cleaning?

Maybe you haven't given too much thought to drain cleaning for your home. Perhaps you have gotten by with products off the shelf of your local hardware store to dissolve little clogs here and there. It might be a tolerable routine right now, but wouldn't it be nice to have your drains professionally cleaned and cleared?

It wouldn't just be nice; it would be very beneficial. All those store-bought chemicals used over time can cause damage to your pipes, creating a larger financial problem for you down the road.

A clogged or backed-up drain can rear its ugly head at the most inconvenient times, causing all kinds of issues from a sink full of gunk that won't drain to bigger, more severe (and costly) problems deep within your plumbing system.

There are some tell-tale signs that a drain clog problem is brewing in your plumbing. You may have a developing issue if:

- You almost always need to use a plunger for the toilet
- Offensive odors are coming from the sink
- Water fills up in your shower, leaving a ring after draining
- Your sink drains slowly or backs up constantly
- Your septic system backs up frequently

If you notice any of these signs, make sure to contact our amazing team at WireNut Home Services right away. Depending on the severity of the issue, we will determine the best way to resolve it using state-of-the-art equipment and methods.

Don't take any chances with your home's plumbing. It's too important not to call WireNut Home Services for drain clearing in Colorado Springs.

Groundworks®

Foundation Solutions Crafted with Pride.

DAMAGED HOME?

Repair and protect your greatest asset today!

What was it that drew you to your home? Do you still love your house today, or have ugly wall cracks or leaking water changed your mind?

Groundworks can restore your home's health, safety, and longevity by permanently repairing damage to your basement, crawl space, foundation, or concrete.

Take a look around your home. Do you see any of these signs?

These symptoms mean there is a problem with your foundation, basement, crawl space, or concrete.

Your house relies on its foundation for stability, but it isn't perfect. It can easily sustain damage for many reasons, many of which boil down to the soil under and around your home.

The soil throughout Colorado, including Denver and Colorado Springs, has mostly clay elements including volatile bentonite clay. Clay soil can become unstable during:

- ▲ Drought
- ▲ Invasive tree root movement
- ▲ Floods

We have developed a variety of permanent repair solutions to meet your home's unique repair needs. These include:

- > Interior Drains
- > Sump Pumps
- > Dehumidifiers
- > Vapor Barriers
- > Pier Systems
- > Wall Repair Systems
- > Concrete Lifting

Your home can benefit from some TLC and a restored foundation, basement, crawl space, and concrete slabs.

Get started with mending the broken parts of your home today by contacting our friendly and knowledgeable staff to book a free inspection and repair estimate.

LIMITED TIME OFFER!

SAVE UP TO **\$500**

* Ten percent off any job over \$2500 up to a max of \$500. Coupon must be presented at time of inspection. Offer may not be combined with any other offer. Limit one per customer. Ask inspector for further details.

Does your tree service follow these principles?

Our "bottom up" approach is better for you, your family, your pets, your neighborhood & our environment.

We are committed to the very best organic & natural solutions with a bias against synthetics & pesticides whenever possible. We recommend fewer foliar sprays than other companies & prefer injecting over spraying whenever possible.

THE BETTER DIRECTORY

Once a year, The **REFERRED PROS** directory is delivered to single family homes in your community. The contractors listed have been vetted by our 3rd party research company. Our team is extremely selective about who we list in our directory and we continuously monitor the listed contractors to make sure they are measuring up to their reputations. The **FREE** County directory is an annual reputation-based resource designed to make it easy to find premier local contractors that are screened and work in your area. We are a local, women-owned and family operated company based here in Colorado.

Contractors must carry insurance and follow state requirements. **REFERRED PROS** is listed as a certificate holder to each contractor so we are notified if their state insurance requirements change or are cancelled.

State law requires a business to be electronically filed and we confirm on the state site they are in good standing.

We confirm Years in Business with the Secretary of State to make sure companies have a solid history in their communities.

We cross reference each company and list their proper state licensing numbers

We check and list each companies Better Business Bureau, Google & Facebook before mailing to local communities so homeowners can identify each company's/contractor's reputation online.

REFERRED PROS monitors calls as a 3rd party for quality assurance and a contractor displaying the "Gold Star" in the directory earned their status by achieving excellence in:

- Answering calls in a timely & professional manner
- Communicating respectfully & clearly in scheduling appointments
- Completing high quality work without complaints from consumers using the **REFERRED PROS** Directory

Every "Referred Pro" is as good as their last job!

If you have great experience, we want to hear about it and please send us a review to info@referredpros.com.

Also, incase you have a bad experience with one of the "Pros", contact us immediately at (303) 554-7010 or info@referredpros.com.

We will step in to make sure you are treated right.

Negatively reviewed Pros that don't resolve issues are simply kicked out!
