

DOT Exam

A DOT physical is a specific physical examination performed by a DOT Certified Medical Examiner. The standards are set by the Federal Motor Carrier Safety Administration as minimum requirements for safety-dependent occupations in the over-the-road transportation industry.

What do DOT Physicals Involve?

While a DOT physical does not include a fitness test or a drug test (both of these are at the employer's discretion within legal limits), a physical exam is performed. In addition, the standardized or physical exam to look for underlying or newly developed health conditions such as diabetes, heart disease or high blood pressure, your DOT physical also includes the following tests:

- Vision (20/40 Left Eye, 20/40 Right Eye, 20/40 Both eyes with or without corrective lenses)
- Urinalysis

Items to bring with you

Drivers with any sort of medical problem, current or suspected, are strongly advised to bring all information with them at the time of the initial visit to the DOT Medical Examiner. This will avoid unnecessary delays and additional expense for the driver.

- Patient Section Completed on the Medical Examiner forms (see link below)
- A List of any Medications Taken
- Corrective lenses
- A Letter from Your PCP Regarding Control of any
 - Diabetes, with most recent HgbA1C
 - High Blood Pressure
 - CPAP Compliance Report for obstruction sleep apnea
 - Other Chronic Condition
- Valid State Issued Identification such as a Driver's License

All actions that occur with a DOT physical exam encounter must be recorded and reported to DOT/FMCSA. Physical exams may be marked as incomplete while awaiting further information from a driver's primary care provider or specialist or be rescheduled for a later date.
