- *Moving Mountains: A Closer Walk With God* (15), ISBN 9789789437290 .

Some Professional Highlights

Rev. (Prophet) Emmanuel Angel is a children, youth and women's motivator, as indicated by his work as Trustee/Vice President – Nigeria of CTF, and as General Overseer/Founder of GMEI. CTF is geared towards teaching children, youth, women and educators, how to make toys, cultural heritage or local technology items, from

recycled and readily available materials, while simultaneously reinforcing knowledge of STEM concepts, fostering creativity and innovation, facilitating leadership, communication and business entrepreneurship skills, and for educators providing related professional and curriculum development. As General Overseer and Founder of GMEI, Rev. Emmanuel Angel grew GMEI from a one branch church in Umuahia to a church with many branches in Abia State, Akwa Ibom State, Imo State and Federal Capital Territory, Abuja. This is an indication of his abilities, communication and social skills, to empower people and push them to higher heights. He grew GMEI without the benefits of affiliation under larger Pentecostal ministries until 2017 when he decided to affiliate GMEI under the global network of WASC to provide an opportunity of expanding GMEI easily beyond the enclaves of Nigeria through the network connections of a religious association with a large global reach. At GMEI, he has provided numerous opportunities for empowerment of members through various programs within the children's ministry, youth ministry, women's ministry, men's ministry, music ministry, pastoral ministry, education ministry, mission's outreach and evangelism ministry, and welfare and hospitality ministry.
