WHAT IS Y.E.S.?

YES is an innovative program by Healing Families Together that empowers youth ages 11-17 through transformative experiences and practical tools that help them build resilience and thrive.

YES centers around the Trait-Based Model of Prevention, a strength-focused curriculum developed by the Kentucky-based Center for Trait-Based Transformation.

The program integrates the Trait-Based Model into both community and school settings, prioritizing engagement in youth-centered programs where prevention skills are reinforced through hands-on learning and recreational outlets.
