1-hour Information Sessions

Active-Shooter / Threat Response: Increasing active-shooter and other terrorists incidents, what to expect, and what to do when law enforcement arrives; DHS guidelines for “Run, Hide, Fight” and “Stop the Bleed” initiatives and tourniquet use.

Active-Shooter Facility Mitigation: Having a practical security plan, facility assessments, equipment and supplies. How to plan, train, and conduct drills.

Advance Travel Planning: How to protect travelers, guidelines on how to monitor and mitigate security and medical incidents, responding to incidents, and country risk assessments.

Business Continuity: Prepare businesses for internal / external issues. Utilizing an Emergency Operations Center (EOC) to facilitate options for faster recovery.

Disaster Recovery: How to plan for “Zero Day” viruses, malicious malware, external hackers, power outages, spam, phishing, server isolation, and other disruptions.

Earthquake Preparedness: Overview on recent incidents, response protocol from various agencies, developing a plan, building a kit, and practicing the plan.

Emergency Operations & Incident Command: Establishing a clear chain of command, monitoring the situation, communications, managing incidents, and resources.

Emergency Response: Review of response protocol from various agencies, recent incidents, developing a plan, building supply kits, monitoring the situation, communications, practicing the plan, and maps.

Medical Response: How to be effective in medical emergencies, establishing a response team, and the importance of conducting drills.

Security Response: Response protocols for different security incidents including active-shooter (internal / external), workplace violence, suspicious mail / packages, bomb threats, and civil unrest.

Tourniquet Training: Hands-on tourniquet training and practice for proficiency - based on DHS’ “Stop the Bleed” initiative.
