

WHY BLUESTONE MANAGEMENT

Professionalism: We are qualified, licensed, and have all of the proper insurance. We have a great name in the industry and have great reviews online. Ask us for references and testimonials from our clients.

Experience & Expertise: We have almost a decade of property management experience. We have assisted landlords, investors & property owners in managing their properties, handling capital projects, day to day maintenance, and dealing with emergency issues for 9 years. We currently manage over 1.1 million square feet of real estate.

Responsiveness: Bluestone understands the importance of a quick response. We are available by phone, text, email, and through our website. Our emergency answering service is available 24/7 with a real human ready to answer your call.

Communication: Every Friday, our clients receive a weekly report from their Property Manager, giving them updates and a breakdown of what was done during the week. If we have had any issues related to the property, they will be broken down in the report.

Financial Management: Bluestone's financial department is open 9-5, Monday through Friday. Our automated accounting system will allow you to view invoices, financial reports, and much more. We have the ability to keep your current bank accounts and operate using those accounts. No need for new accounts! Ask us for a financial sample.

Tenant Management: Besides improving tenant relations and customer service, Bluestone maintains tenant records including leases, insurance certificates, contact information, and rent reports.

Technology: Bluestone Management uses modern technology to streamline operations and work as efficiently as possible. This includes our property management software, online portals for tenants, and automated systems for rent collections and maintenance requests.

Bluestone Management is a reliable and reputable choice for property management.
