

# RA TACTICS TACTICAL TRAINING

Presents:

## Micro Red Dot Sight (MRDS) Instructor Certification (NV POST Certified)

### Main course overview - 30 Hours

The goal of this course is to have the student become familiar and confident in the use of their MRDS on their handgun. Their proficiency level will assist them with the skills needed to instruct a MRDS user certification class.

### Prerequisite:

This class is NOT for the beginner shooter. The students taking this class should already have a working knowledge of the handgun system with a basic accuracy proficiency level (level of proficiency is that the student is comfortable in taking accurate shots from the 15 and 25 yard line).

For the instructors, this is NOT AN INSTRUCTOR DEVELOPMENT CLASS. This class will make the MRDS instructor candidate familiar and comfortable shooting and instructing the MRDS. The final day of the class will focus on instructor development, MRDS knowledge and skills/tips on how to run their own MRDS class. It is recommended that the instructor candidate taking this class has completed an "Instructor Development" class and/or is a "Range Master/Firearms Instructor". These are recommended but not a requirement to attend the Instructor Class.

### Upon completion of this class the student will be able to:

1. Demonstrate how to properly zero the MRDS.
2. Acquire their MRDS with proper presentation, consistently.
3. Explain the limitations of the MRDS.
4. Explain the mechanical offset that occurs while using your MRDS.
5. Shoot accurately while using their MRDS.
6. Shoot accurately using their "support hand" while using the MRDS.
7. Shoot accurately with a "compromised" MRDS.
8. Demonstrate "low-light" techniques while using the MRDS.
9. Show two different handheld flashlight techniques while using the MRDS.
10. Complete firearms drills that focus on accuracy.
11. Complete reload drills, under time, with the MRDS.
12. Pass the MRDS qualification during daylight and low-light/nighttime hours.
13. Name the five advantages of using a MRDS as discussed in class.
14. Identify the seven adult learning principles as discussed in class.
15. Instruct a MRDS topic that is assigned by the instructor.
16. Pass the MRDS Instructor Qualification during daylight and low-light/nighttime hours.

## Required Equipment:

- Eye Protection
- Hearing Protection
- Duty Belt (or belt with handgun holster and magazine pouches)
- Handgun with MRDS
- Tac Light for Handgun
