Your gut, the unsung hero of health

The human gut is a powerhouse, influencing everything from digestion to immunity. In Australia, gut health is gaining attention for its profound impact on overall well-being.

Up to 80% of your immune cells reside in your gut, highlighting its crucial role in defending against illnesses.*

FUN FACT!

3 KEY TIPS FOR A HEALTHIER GUT

Embrace Fibre-Rich Foods: Incorporate vegetables, fruits, legumes, nuts, and whole grains into your diet to support digestive health.

Stay Hydrated: Drinking plenty of water, it aids in digestion and nutrient absorption.

Consider Probiotics: The Australian probiotics market is growing, reflecting increased interest in gut-friendly supplements.

Remember, nurturing your gut is an investment in your overall health. For personalised advice, consult your local Pharmacist.

A CANCEL ALL PLANS COLD

Did you know?

Between January and March 2025, Australia recorded over 46,300 lab-confirmed influenza cases, marking a more than 50% increase compared to the same period last year. This surge indicates that the flu season is arriving earlier and with greater intensity.*

Save \$2.00*

Did you know?

Most sore throats are caused by viruses — not bacteria — and are often your body's first signal that a cold or flu is on the way. Factors like dry air, allergies, and even talking too much can also irritate your throat.

Strepsils helps numb the pain fast, so you can get back to feeling like yourself sooner.¹

TRUST Strepsils[®] TO NUMB PAIN FAST
