

Allen Goodman Caricature Walking Stick - Oct 3, 4 \$150 plus \$5 for materials

Allen creates a tremendous face from scratch. You can see examples below and I can tell you from experience, his setups are unique and when completed look very similar to his work. In his class, you can pick up great ways to show expressions and make those noses stand out. This class will emphasize hand tools and will be using time saving techniques to roughout and carve details in a green sweet gum sapling that will turn into a stout walking stick to aid in hiking or walks around the neighborhood. You will be provided a walking stick with leather for \$5. Minimum 6 Maximum 10
