

Incorporating Age-Friendly Principles into Clinical Practice

Objectives

1. Review the 4Ms Framework of Age-Friendly Healthcare
2. Demonstrate age-friendly assessment through clinical vignettes
3. Describe evidence-based tools that can be used to assess the 4Ms in clinical care
4. Describe evidence-based interventions that can be employed in the care of older adults

Disclosures

I currently receive funding from a National Institute of Nursing Research, Ruth L. Kirschstein National Research Service Award (F31NR020140-01)

Why Age-Friendly Care?

We live in an aging society that is chronically ill

Nearly half of the 65+ population is living with **two or more chronic serious illnesses**

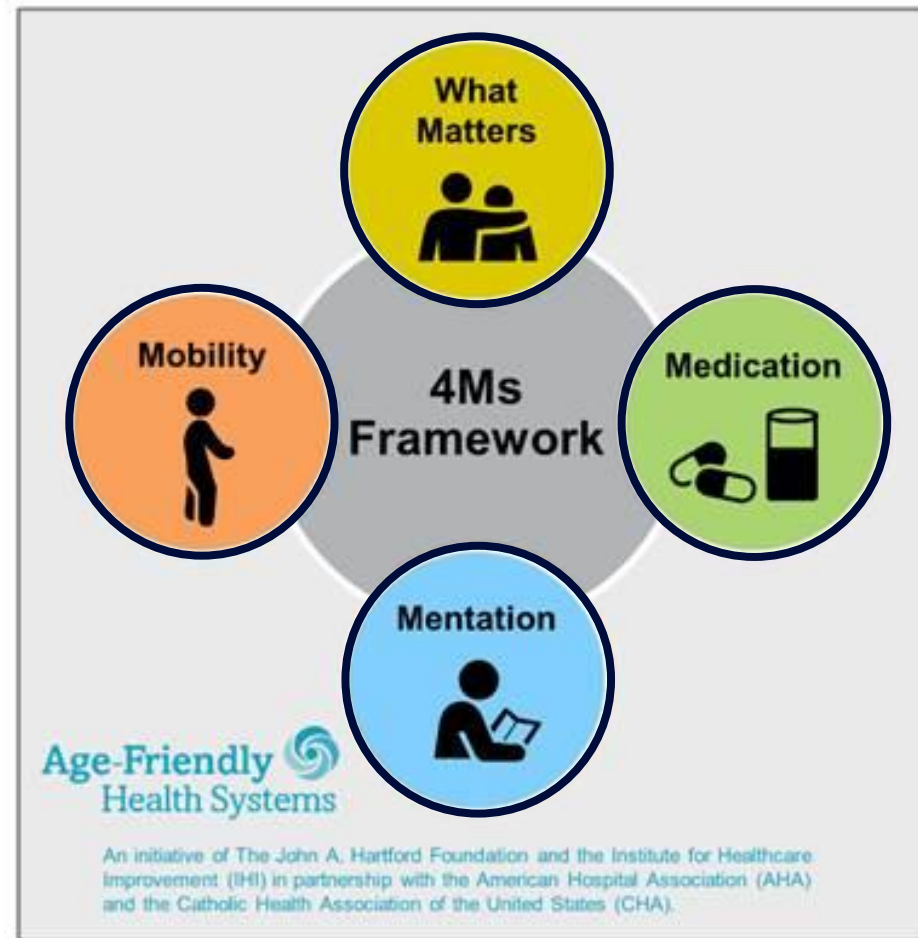

Ageism is Prevalent in Healthcare

APPs are Well Suited
to Meet the Needs
of an Aging Society

What is the 4Ms Framework?
