

Indianapolis Symphonic Band, Inc.
Member Expectations

For the safety of all members, the following procedures & expectations have been developed for implementation beginning April, 2021. These procedures may be altered or revised going forward through the calendar year.

General Considerations:

- All personnel must wear a face mask at all times when at rehearsals and performances unless when playing.
- Members will be asked to provide their own music stands.
 - There are a very limited number of music stands at Legacy Bible Church during rehearsals. If you need to purchase a music stand there are many options online ([like this one on Amazon](#)) or at your local music retailer of choice
- Section leaders will be asked to submit their section roster & attendance in advance of each rehearsal so that we can plan for the expected number of persons at rehearsal each week.

Self-diagnosis & Wellness Screening:

- Members will be required to submit a signed symptom check form at the door every week prior to entering the building. Please print and complete the attached form prior to arriving to rehearsal – limited number of printed copies will be available if you forget each week.

Setup Modification:

- The band will be spaced out throughout the sanctuary of the church with 6ft distancing between chairs.
- Members will be asked to proceed to their chairs upon arrival at the building to assist in enforcement of social distancing.

Please help us by being proactive on following these procedures, designed to comply with venue expectations & reduce the risk of illness to our fellow musicians. Thank you so much for your flexibility & adjustment as we return to rehearsals.
