Honor Speeches

**RENEZMAE KARLYLE R.
CAMPOS
KINDER 2 CLASS 1**

To our teachers, administrators, faculty members, parents, guardians, fellow graduates and friends, good afternoon.

This school year has been challenging to all of us because of the pandemic, but this did not stop us from learning, the school and the teachers bridged the gap to providing us quality online education so our curious minds can continue to learn and grow.

Although, we see each other virtually, we are grateful as we get to learn inside the comfort of our home, safely with the help of our dear parents and guardians who patiently guide us along the way. They became our teachers at home and we thank you for your understanding and efforts.

Everyday was a new challenge and we are all excited as we learn new lesson each day. Our teacher made sure that we are enjoying while learning.

As we move-up and take a new step to another milestone we will be ready to learn more and make mistakes along the way. As the school helps us grow, being a student and be better someday.

Again we are thankful for our parents, guardians and teachers for all their patience and support. For now as we spread our wings and grow into butterflies we will soar and move up with joy and pride. I wish to congratulate the Kindergarten class of 2022 and to all the graduates, I thank you.

Honor Speeches

**YMMANUEL MATTEO
BAUTISTA
KINDER 2 CLASS 2**

Good day Teachers and good day hardworking Parents and good day fellow classmates and students. I am Emmanuel Mateo Bautista and it is my pleasure to meet you and to deliver a speech to represent the Kinder 2.

I want to congratulate everyone, Teachers, Parents and Students for making it to the school year despite the challenges we have been through from the spread of Covid.

And even to then just typhoon we we're able to survive and succeed. I would like to thank our responsible teachers for teaching us and for creating activities that made a better version of our selves. It was not easy because we shifted to physical classes to virtual ones, but inspite of that you made our journey in Kinder 2 fun and exciting. A big thank you also to my classmates for the laughter and the memories we shared and for the tasks we did together like singing, dancing and my favorite part answering math, Kinder 2 was great because of you.

Let us not forget to give a hug to our parents for the love, effort and support, as we move to another level, I would like to encourage everyone to keep up the good work and let us give our best in everything we will do and let us set our eyes to the prize of education, and that is a better life and tomorrow, thank you.

Honor Speeches

JOMRICH MIEL B. ROSAS
GRADE 5

To the school Principal Mrs Fedilyn Villota, our School President Mr. Francisco Paculanang, the School CEO Ms. Azyll Grace Paculanang, Assistant School Principal Ms. Johannie Ote, School Administrator Mrs. Felinda Paculanang, our dearest EL Elyon Teachers, Parents and Students a pleasant day to all of us that are here today.

I want to start by saying congratulations to all my fellow students. The time has come to celebrate the results of our hardworks and I am very sure that our loving Parents and Guardians are beaming with pride and happiness for all of us.

As a daughter of someone who is also a teacher, I received a lot of expectations from my parents and the people surrounding me, yet I do not regret anything because I realized that if I were a normal student I would not know of anything about the everyday lives of our Teachers, the sleepless nights, the empty stomach due to piles of work and the overwhelming stress. I see them as heroes. To become one is challenging you need patience, good mindset, determination and strength. So to all the Teachers out there not only to El Elyon Learning Center Teachers, I salute each and every one of you. Thank you for the words of wisdom and compassion for your jobs. I want to thank my family as well for being my role models, thank you for the support and for always going out of your ways for me, I hope you are proud of me, and above all I want to thank God for the blessings I received, Your love for me is beyond compare.

To my fellow students like me we have to keep holding on to our dreams and aspirations in life. I would also want to share my love for technology and my dream to be an IT Expert one day, I would also want to start my own YouTube Channel so I can have a venue to hone my skills in editing and to inspire people who have the same interests as me. I am still practicing making fun arts, digital drawings and edit whenever I have free time after school. As of the moment, I am more focused on my studies. To all my classmates and fellow students I want to remind you, there are a million times you could have failed but you made it, we all made it, keep dreaming, keep thriving and keep working on your dreams. Congratulations to all of us, I am Jomrich Miel B. Rosas and I thank you.

Honor Speeches

**JENILLIAH NICOLH
MATUGAS
GRADE 6**

Good afternoon fellow students, teachers and family it is a very big honor to be speaking here today in front of very wonderful people. I am really grateful to be graduating this year 2022. I cant believe I have made it through these two years 2021 and 2022. I admit it has been a real challenge ever since Covid-19 struck, people were declared to wear masks, face shields and air purifiers at first I wasn't really used in wearing masks but a year has passed and I kind of got used to it, and I also admit that I miss face to face classes ever since online classes took over but its okay because the important thing is I can still study and learn many new things, and those new things has brought me here today saying this speech I have composed for you wonderful people. To be honest I was quite bored because I am the only one in class and I don't have classmates to talk to, but it is still really fun because teacher manages to make me laugh and I am thankful for my teachers and parents because without their help I never would've got to say this speech today so I advice you kids to never ever give up dreaming, never lose hope because all the hope you need all the strength you need has been in your lives all the time, wanna know who they are? your parents! the people who brought you in this world and gave you unconditional love, so we must try to be the best sons and daughters to our parents and we must be the best students to our teachers because they are the one who spent their time teaching us and I am very thankful for them because they are in my life, so fellow students we should never give up and we should dream bigger because this is just the beginning.
