ABOUT MATHWORX

Special Needs Education

Staff development - Special needs learners in the classroom

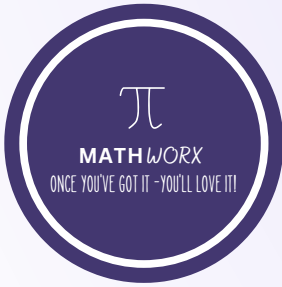

We are a full service tutoring institute and provide services to students, schools and educators both online and in person.

We have a team of dedicated experts and facilitators who provide teacher development programmes and enrichment courses.

We have partnered with Dr Philippa Fabri, co-founder of Elsen Academy.

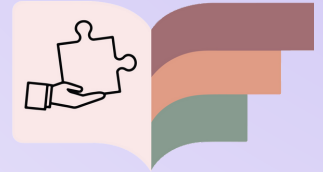

To provide teachers in Special Needs with industry leading tools and techniques to better navigate the Special Needs teaching landscape

LEARNING TO READ WITH EMPHASIS ON THE FOUNDATION PHASE; HOW TO ASSESS , IDENTIFY AND SUPPORT PROBLEM AREAS.

This two hour workshop targets Foundation Phase teachers and the practical teaching process that takes place on the mat in the classroom every day. The material will take you through the two main academic skills needed to be able to read, and the six stages in the development of reading.

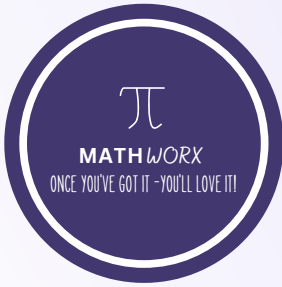

The workshop will culminate in the practical application of identifying some of the common problems associated with reading and how teachers can screen and test for some of these problems using a specifically designed assessment file. The assessment file can be purchased for R350.00. It is advisable to purchase the file for the workshop, but not a necessity.

READING TO LEARN; HOW TO ASSESS , IDENTIFY AND SUPPORT PROBLEM AREAS

This two hour workshop targets Intermediate and Senior Phase teachers and the process of reading independently and with understanding, i.e. when studying for tests and exams. This workshop will discuss the six stages in the development of reading but in particular stages three and four, where learners are expected to be read and understand written text on an independent level.

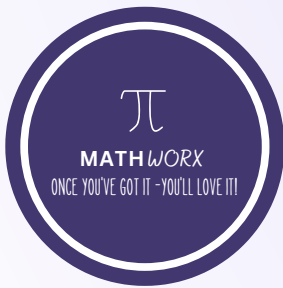

The workshop will culminate in the practical application of identifying some of the common problems associated with reading and how teachers can screen and test for some of these problems using a specifically designed assessment file. The assessment file can be purchased for R350. It is advisable to purchase the file for the workshop, but not a necessity.

ANXIETY IN THE CLASSROOM; WITH EMPHASIS ON EXAM AND TEST ANXIETY

This two hour workshop is based on a doctoral study and discusses the types of anxiety that might show up in the classroom and ways that teachers can identify and support their learners.

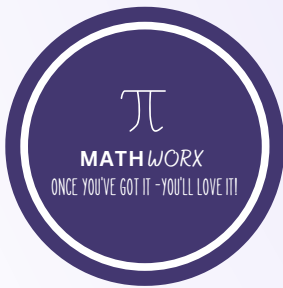

The workshop is designed for teachers across all phases and grades. The workshop explains the types and characteristics of anxiety, including test and exam anxiety and stress and explores practical ways to prevent the spread of anxiety in a school community.

UNCOVERING YOUR TEACHING SUPERPOWER

Created on a framework that discusses four important issues - the mistakes that teachers can sometimes make, the teacher's mindset, the characteristics of a great teacher and finally, a suggested method that teachers can implement to find their unique teaching superpower.

This two hour workshop is designed for all teachers of all ages and years of experience that are feeling they need encouragement and motivation. The workshop is divided into four sections - mistakes, mindset, make up and finally, method. The final section of the workshop is a practical application in the form of an activity, done in teams or individually, using the template that is provided in the workbook.

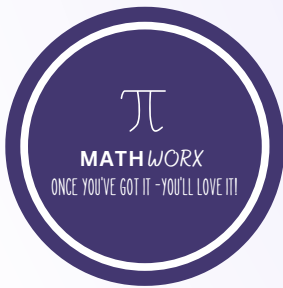

The workbook needs to be printed for teachers to use during this section of the workshop.

BUILDING A POSITIVE SCHOOL CLIMATE; FINDING YOUR "SECRET SAUCE"

This is a one hour workshop to discover your school's "secret sauce" and what sets your school apart from the one down the road. Our target market here is the SMT and leadership of schools but it can be presented to all staff members as a great team builder. The course will take you through some issues causing organisational stress and burnout among teachers, and then how to cultivate a culture of learning and teaching - where teachers (and students) can T.H.R.I.V.E

THE MYTH OF LAZINESS - HOW TO BE MORE PRODUCTIVE IN YOUR DAY

Are you forgetting things, losing belongings, ill prepared, leaving assignments until the last minute or forgetting to do them altogether.

Not using a diary or calendar to its full potential, or having a poor concept of time? Does this sound familiar?

Are you someone who struggles with admin? Do you have a colleague who does? Dr. Mel Levine writes that there are eight main reasons why someone might have "output failure" - that leads to poor productivity, otherwise known to all of us as LAZINESS! This one hour workshop is aimed at school leaders but it can be presented to the whole staff.

We discuss this and provide some helpful strategies to improve executive functioning.
