## CAPRIO D'PULL WITH MORTICE LOCK

38mm 800mm

## **COLOURS AVAILABLE**

Satin Stainless Steel

Caprio D'Pull handles make a bold statement on large sliding doors, ensuring ease of operability whilst also adding to the contemporary visual aesthetic of your home. The Caprio D'Pull handle is available exclusively in stainless steel and is ideal for coastal applications. The elegant design incorporates a gentle vertical accent running the full length of the handle which plays with the light and adds interest to the otherwise simple handle design. Used in conjunction with the Caprice Mortice Lock, the Caprio D'Pull provides a contemporary and practical solution to securing your sliding door. A complementary Euro profile escutcheon is also available.

## **KEY FEATURES**

- Manufactured from quality 316 grade stainless steel
- 800mm D'Pull suited to large sliding panels
- Back-to-back configuration
- Suitable for internal and external use
- 7-year tarnish warranty on stainless steel finish
- Matching Euro profile cylinder escutcheon
- Twin beak mortice lock delivers excellent security.

## CAPRIO FLUSH PULL WITH MORTICE LOCK

Ideal in sliding door applications where an understated look is desired, the Caprio Flush Pull provides ease of operation with a flush contemporary handle design.

Available exclusively in stainless steel, the Caprio Flush Pull is ideal for coastal applications. Used in conjunction with the Caprice Mortice Lock, the Caprio Flush Pull delivers security and style for your sliding door. A complementary Euro profile escutcheon is also available.

## **KEY FEATURES**

- Manufactured from quality 316 grade stainless steel
- Back-to-back configuration
- Suitable for internal and external use
- 7-year tarnish warranty on stainless steel finish
- Matching euro profile cylinder escutcheon
- Twin beak mortice lock delivers excellent security.

### **COLOURS AVAILABLE**

Satin Stainless Steel

Designed to complement the Capral Urban, Urban Plus and Artisan range of windows and doors, Caprice by Capral is a contemporary range of window and door hardware.

Available in durable powder coat finishes including flat black, the Caprice range is ideal for residential applications and delivers a consistent, stylish, cost-effective solution for all windows and doors throughout a home.

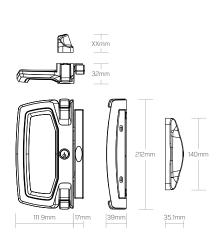

# CAPRICE TWIN POINT SLIDING DOOR LOCK

Twin point locking delivers peace of mind with this innovatively styled, contemporary sliding door lock. Incorporating twin lock tongues and actuators for added strength and security, the Caprice Twin Point Sliding Door Lock is manufactured from aluminium inside and out, delivering excellent strength, durability and style.

## **KEY FEATURES**

- Incorporates C4 cylinder as standard
- Two large 6mm thick pressure cast opposing action hook tongues
- Anti-crash mechanism to prevent keeper damage
- Available in double cylinder, internal cylinder only, external cylinder with internal snib, and snib only combinations
- Incorporates unique Twin™ push/pull actuator operation.

### **COLOURS AVAILABLE**

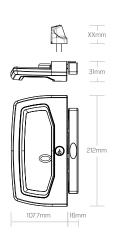

# CAPRICE SINGLE POINT SLIDING DOOR LOCK

Incorporating gentle angles to complement the clean lines of the Urban and Urban Plus range, the Caprice Single Point Sliding Door Lock provides a unique and contemporary appearance for your home. With the internal handle manufactured from Polesium™ and the external handle from strong, durable aluminium, the Caprice Single Point Sliding Door Lock will deliver long-standing corrosion resistance ensuring sophistication and style for generations.

### **KEY FEATURES**

- Polesium™ internal handle, aluminium external handle
- Available in a range of standard and non-standard powder coat colours
- Tactile grip on underside of handle with ergonomic design ensures maximum grip and accessibility to users
- Available in double cylinder and internal cylinder only combinations, ideal for apartments
- Can be keyed alike to Caprice window locks for a true one key solution.

### **COLOURS AVAILABLE**

## CAPRICE FLUSH PULL HANDLE

Simple and stylish, the Caprice Flush Pull Handle is an excellent choice in applications where an understated hardware option is preferred.

With simple, timeless design cues the Caprice Flush Pull Handle will blend seamlessly with the door and provides a flush mounted alternative to traditional pull handles. The rebated finger grip makes it possible to slide panels easily.

## **KEY FEATURES**

- Manufactured from diecast aluminium for excellent strength and corrosion resistance
- Matching Euro profile cylinder escutcheon
- Can be installed as double handles (both sides of door) single handles (one side only) or as combination configurations with Caprice D'Pull handles.

### **COLOURS AVAILABLE**

# CAPRICE FLUSH MORTICE SLIDING DOOR LOCK

Unobtrusive style is the hallmark of this Caprice Flush Mortice Sliding Door Lock, delivering robust security and understated style. The mortice lock nests within the door panel whilst the slimline faceplate incorporates a rebated finger grip, clever lock snib and minimal projection from the door stile. The Caprice Flush Mortice Sliding Door Lock is the ideal choice in applications where the sliding door handle and lock should blend seamlessly with the door panel.

## **KEY FEATURES**

- Customised design has the snib and cylinder all built to the flush pull unit
- Slimline furniture profile extends only 1.7mm from the face of the extrusion
- Twin counteracting beaks provide resistance to jimmying
- Available in standard and non-standard powder coat colours, including flat black
- Available as double cylinder (internal snib), cylinder external (internal snib) and no cylinder (snib only)
- Strikes and packers sold separately to suit your suite selection and combination.

### **COLOURS AVAILABLE**

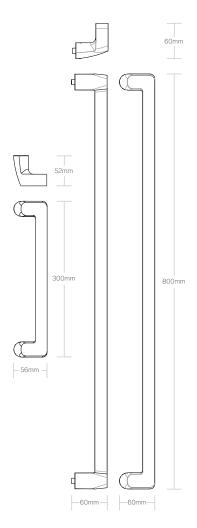

## **CAPRICE D'PULL HANDLE**

An excellent choice for bold sliding door panels, the Caprice D'Pull makes a grand statement and ensures operating large sliding doors is a breeze.

With careful design cues and accents, this strong and striking D'Pull Handle is used in conjunction with our twin mortice lock for excellent security and uncompromising style. Available in two lengths to suit varying door heights.

## **KEY FEATURES**

- Available in 300mm or 800mm handle length
- Manufactured from diecast aluminium for excellent strength and corrosion resistance
- Large D-Pull provides maximum grip and accessibility
- Matching Euro profile cylinder escutcheon
- Can be installed as double handles (both sides of door), single handles (one side only) or as combination configurations with Caprice Flush Pull Handles
- Available in standard and non-standard powder coat colours, including flat black.

## **COLOURS AVAILABLE**

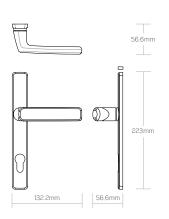

## CAPRICE HINGED DOOR HANDLES

Carefully blending soft curves and clean lines, the Caprice hinged door lever sets are a modern take on a traditional lever handle.

With style cues that suit modern home styling and fixtures, the Caprice lever handle will integrate effortlessly with your home décor as a stylish feature on hinged and bi-fold doors.

## **KEY FEATURES**

- Manufactured from diecast aluminium
- Suitable for hinged doors, both single French doors and bi-fold applications
- Available in standard and non-standard powder coat colours, including flat black
- Available with single or multi-point (four-point) locking options for added security
- Multi-point locks include an internal snib locking feature
- Independent spring mechanism on each handle ensures no issues with handle sagging.

### **COLOURS AVAILABLE**

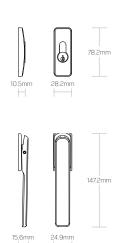

## CAPRICE BI-FOLD HARDWARE

A careful complement to the Caprice Hinged Door Handles, the Caprice Bi-fold actuator expertly blends clean lines and gentle curves to create a modern, stylish and functional operator for bi-fold doors.

Rotate the handle to activate locking rods at the top and bottom of the door panel to lock or unlock. This simple and stylish actuator can be used alongside hinged door sets to deliver consistent style cues.

## **KEY FEATURES**

- Manufactured from diecast aluminium
- Slim and subtle design ensures that overall furniture doesn't clash against panels in the open position
- Unique leaf spring mechanism ensures handle returns to home position every time
- Available in standard and non-standard powder coat colours, including flat black
- Locking and non-locking options.

### **COLOURS AVAILABLE**

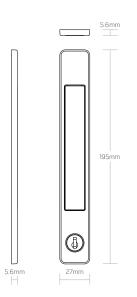

# CAPRICE SLIDING WINDOW MORTICE LOCK

A simple, stylish and understated sliding window lock, ideal as a complement to the flush mortice lock or flush pull options for sliding doors. The Caprice Sliding Window Mortice Lock incorporates a recessed finger grab within a compact footprint creating a sleek and stylish finish.

## **KEY FEATURES**

- Self-latching lock
- Compact design with recessed finger grab
- Concealed fixings
- stainless steel adjustable tongue.

## **COLOURS AVAILABLE**

## CAPRICE SURFACE MOUNTED SLIDING WINDOW LOCK

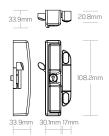

A conventional sliding window lock, incorporating modern styling and easy operation. The simple latch-operated mechanism provides reliable locking with simple installation at an economical price point.

## **KEY FEATURES**

- Available in black only
- © Can be keyed alike to single point surface mounted sliding door locks for a one key solution
- Performance tested to 50,000 cycles to ensure hassle-free consistent operation.

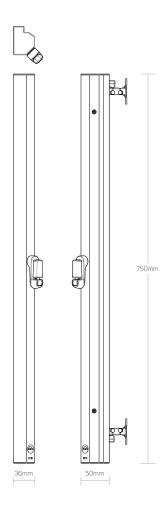

## **COLOURS AVAILABLE**

## CAPRICE HIGH PERFORMANCE DUAL CHAIN WINDER

### **COLOURS AVAILABLE**

Standard and non-standard powder coat colours including flat black.

Taking inspiration from the very windows it's designed to operate, the Caprice High Performance Dual Chain Winder is designed to deliver consistent and reliable performance even in the harshest of environments. With a body manufactured from extruded aluminium, the Caprice High Performance Dual Chain Winder will exceed industry benchmarks for corrosion and can be carefully colour-matched to suit your individual project. The added flexibility of adjustable chain restriction ensures openings can be precisely limited to comply with building requirements or occupant needs.

## **KEY FEATURES**

- Adjustable chain restriction that can limit opening from 110mm to 265mm
- Large 600mm dual sash mounts reduce flex in extrusion resulting in better performance
- Extruded aluminium body provides a sleek profile that can either blend seamlessly or contract window
- Ultimate Pull test completed and surpassed 5,800N of force (approx. 590kg)
- Ultimate Compression test completed and surpassed 3,700N of force (approx. 377kg)
- Salt bath tested to 1,000 hours as per AS2331.3.1.

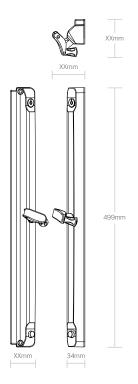

## CAPRICE DUAL WINDER

Simple and stylish, the Caprice Dual Winder is designed for wide awning sashes providing smooth sash operation with key locking.

The convenient push button lock allows you to easily lock the window in an open position, using the key to release. The folding handle ensures the handle can be tucked away from blinds or curtains avoiding any unwanted obstruction. Dual chains ensure the sash is properly supported when open.

## **KEY FEATURES**

- Window restriction compliant in association with Kids Don't Fly
- Supplied with a stainless steel chain
- Smooth, effortless operation and control for large awning openings.

## COLOURS AVAILABLE

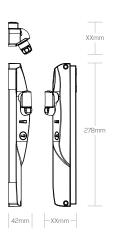

## CAPRICE SINGLE CHAIN WINDER

A stylish addition to any awning window, the Caprice Single Chain Winder is ideal for standard size awning windows providing smooth, quiet, easy operation with key locking.

The convenient locking indicator helps occupants quickly recognise if the winder is locked or unlocked, and the folding handle ensures the handle can be tucked away from blinds or curtains avoiding an unwanted obstruction.

## **KEY FEATURES**

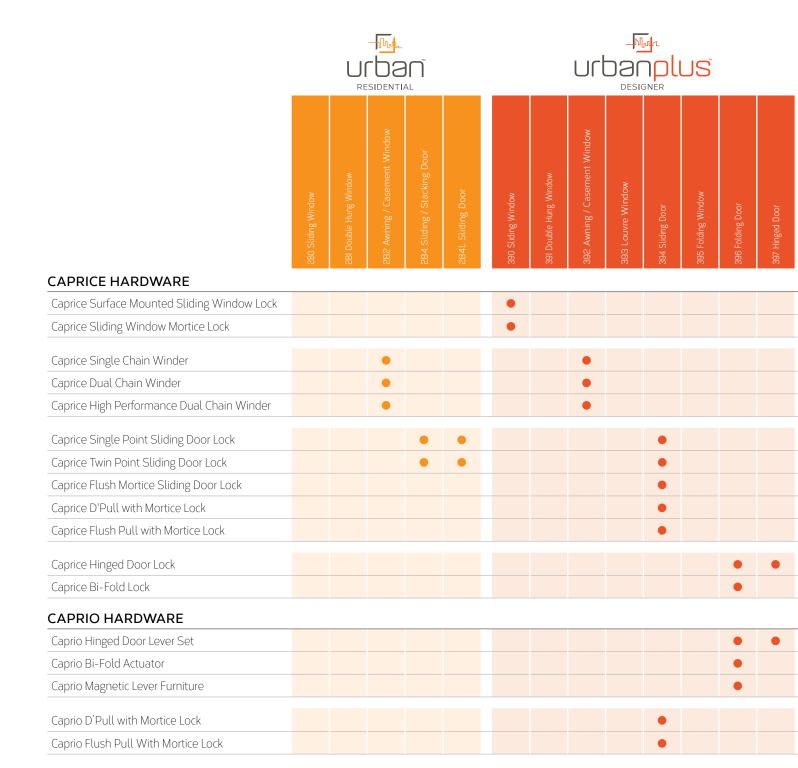

- Fold-down lever for sleek profile when not in use
- Optional sash restriction settings that limits opening to 110mm to comply with restriction requirements for windows in elevated applications
- Tested to ensure open sashes will not fall or push close under negative pressure
- Performance tested to 30,000 cycles.
