

ULTRACRETE-TX1000

All-In-One Multipurpose Texturing Overlay Mix

10-YEAR PRODUCT WARRANTY

Ultra Concrete Coatings, LLC. manufactures UltraCrete-TX1000 Multi-Purpose Overlay (the product) to the highest standards and of the highest quality.

Ultra Concrete Coatings, LLC. warrants UltraCrete-TX1000 Multi-Purpose Overlay from delamination or bond failure from a properly prepared sound substrate for a period of ten years from date of installation. This warranty is limited and stated that the material is proven to be defective. This warranty does not cover substrate or surface failure in which the product was installed. Should failure occur, it must be proven that there are no failed substrate materials, prior installed surface materials or foreign materials bonded to the product.

Ultra Concrete Coatings, LLC. will only warrant UltraCrete TX1000 Multi-Purpose Overlay if the material has been applied over a sound substrate that has been properly prepared to the manufacturers specifications.

Proper preparation includes:

Removal of existing sealers, paints, overlays, loose concrete and any foreign materials such as dirt, oil, grease, etc.

Ultra Concrete Coatings, LLC. will not warrant UltraCrete-TX1000 Multi-Purpose Texturing Overlay from cracking due to existing and future substrate cracks and does not apply to final color coats or sealer coats.

Moisture/Alkalinity: The absence of an effective vapor barrier may create an environment for moisture vapor transmission as well as high levels of alkalinity in concrete slabs. Introducing an impermeable coating/flooring system to this environment may result in blistering or general failure. Thus, a calcium chloride test (ASTM F-1869) and/or relative humidity probe (ASTM 2170) must be conducted and is the responsibility of the installer. Ultra Concrete Coatings, LLC is not responsible for failures due to the presence of moisture vapor emissions and/or high levels of alkalinity.

This warranty is for the replacement of product only. Ultra Concrete Coatings, LLC. is not responsible for contractor's bids and its agreements with second or third parties and for labor costs for removal and re-application of UltraCrete-TX1000 Multi-Purpose Overlay.
