Innovator Profile Series

The Coach

Matt Reed
Senior Solutions Architect

CONFLUENCE®

Regtech
Positive Disruption

New ideas are fostered by diverse voices and great listeners. Matt is an innovator and mentor. He defines the box only by what he sees outside of it. His team developed an innovative solution to extract meaningful information from data and then served it up for regulatory consumption. His unconventional thinking and solid understanding of market challenges led to a regulatory reporting solution that will continually evolve with regulatory demands.

Unity NXT® Regulatory Reporting

Powered by Synapse™, Unity NXT Regulatory Reporting enables clients to solve post-trade regulatory filing needs through one system, giving asset managers and servicers the answer to regulatory change.

Let your data work for you – not the other way around.

- Integrate, aggregate and re-use data
- Meet condensed 30-day Form N-PORT filing cycles
- Adapt quickly to ongoing regulatory change
- Significantly reduce time and cost of existing reporting

Contact us to learn how we can help put your organization on a path to positive disruption.
