

# 3 ways to refresh your home for spring

Word Count: 356

Looking to update your home for the season but don't have time or budget for a major renovation? Do it right with these three easy DIY paint projects that can each be done in just a day.

"The seasonal transition from winter to spring is the perfect time to freshen up," says Sharon Grech, colour and design expert for Benjamin Moore. "If you're like me, you don't have unlimited time to devote to working on your home, which is why small weekend projects are perfect because they're quick, easy and affordable."

**Hit refresh with paint.** Nothing says refresh quite like bringing new life to a tired piece of furniture. A fresh coat of paint is the perfect solution to make old, dated furniture seem trendy and new. Look for pieces that have solid construction and interesting shapes. Grech says headboards, wardrobes, chairs and side tables are all great pieces to transform. If you are unsure of the condition of the furniture or how to paint it, visit a local paint retailer to ensure you get the product that is right for your project.

**Amaze with an accent wall.** Feature walls are a great way to make an impactful change to a space. "Many people think accent walls need to be very bold and vibrant hues, when they can be neutral to create a more cohesive and harmonious feel," says Grech. Explore painting the fifth wall, otherwise known as the ceiling, for a unique and modern look that can add dimension to a space.

**Front door décor.** The front door has the ability to instantly create an inviting impression before guests enter your home. "Applying a fresh coat of paint to your front door is a great DIY project that can be done quickly and can invigorate the look and feel of your home," says Grech. "Because it's so easy, you can even change your door colour seasonally." Benjamin Moore's Aura® Grand Entrance collection, inspired by European enamel finishes has more than 42 curated colours.
