

# JPC Lighting Linear LED Magnetic Retrofit Kit

**\*3CCT & 3Power selectable\***

# What is the kit?

3CCT switch

3Power switch

2x magnet backup led linear strips  
1x magnet backup led driver

It is the easiest and most versatile fluorescent bulb retrofit solution: two-piece magnetic led strip and a magnetic driver that attaches directly to any existing linear fixture.

**FAST & EASY RETROFIT!**

# PC lens is removable, can achieve two styles:

type 1: with lens

type 2: without lens

# 4. Diverse Application

## Application 1

If with lens, can retrofit linear strip fixtures

## Application 2

If with lens, can retrofit open troffer fixtures

## Application 3

If without lens, can retrofit closed troffer fixtures

# Model Selection:

1. 3CCT & 3Wattage selectable in one kit, Save 75% Stocking
2. 0-10v dimming
3. 145lm/W per module
4. 120-277V & 120-347V
5. The PC lens can be easily added or removed
