INDUSTRIAL AUTOMATION SOLUTIONS

P.G.AUTOMATION

The Company, M/s. P.G.AUTOMATION, was setup way back in 2007 with a goal to provide Hi-Performance, Hi-Tech, Sophisticated, and Complete Automation & Drives Solutions (including Panels and Complete Systems) to diversified sectors of Industry.

www.pgautomation.in

AC DRIVE PANEL

Manufacturing of all types of AC Drive Panels With Programming and Commissioning on site for different applications. With and without PLC communication also we are developing. Manufacturing done with proper engineering of Design and control and power Wiring.

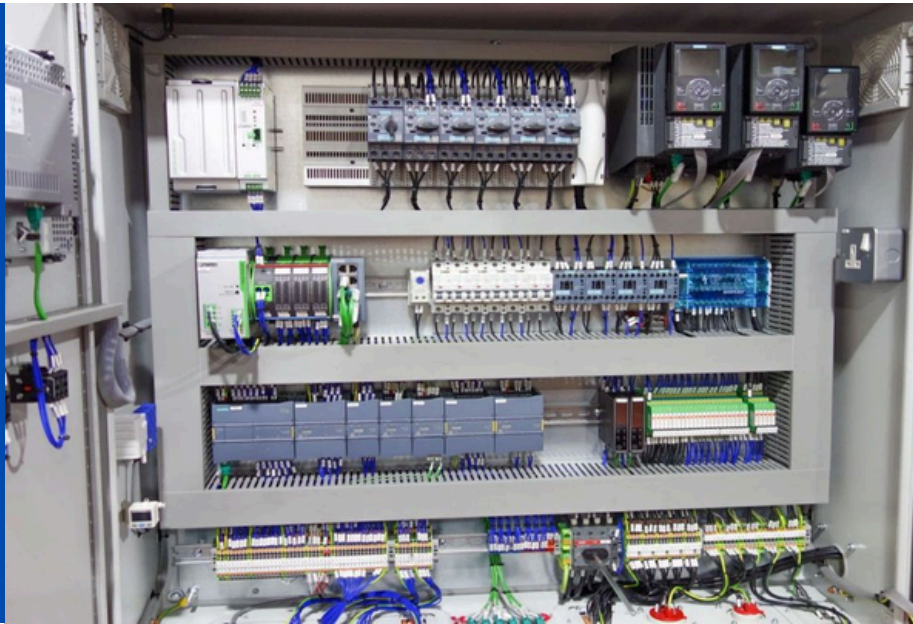

MACHINE AUTOMATION

P.G.Automation has a vast Experience of Machine Automation like, Special Purpose Machines, Packaging machines, Textile machines, Diamond machines, or any critical machine application can develop according to client requirements.

PROCESS AUTOMATION

P.G.Automation has a greatest team to execute Process Automation Turnkey Projects. Any process plant application with PLC, SCADA and DCS Application can develop and commission with proper planning, execution, systematic sequence and proper technical documentations. P.G.Automation is deal in PLC control panel, Electrical panel, PLC Training kit, Automation project for Engineering colleges, Turnkey project with field instruments, Sensors, HMI programming, Drive panel providing complete industrial Automation solution, APFC Panel, HT LT Panel, MCC Panel, PCC Panel.

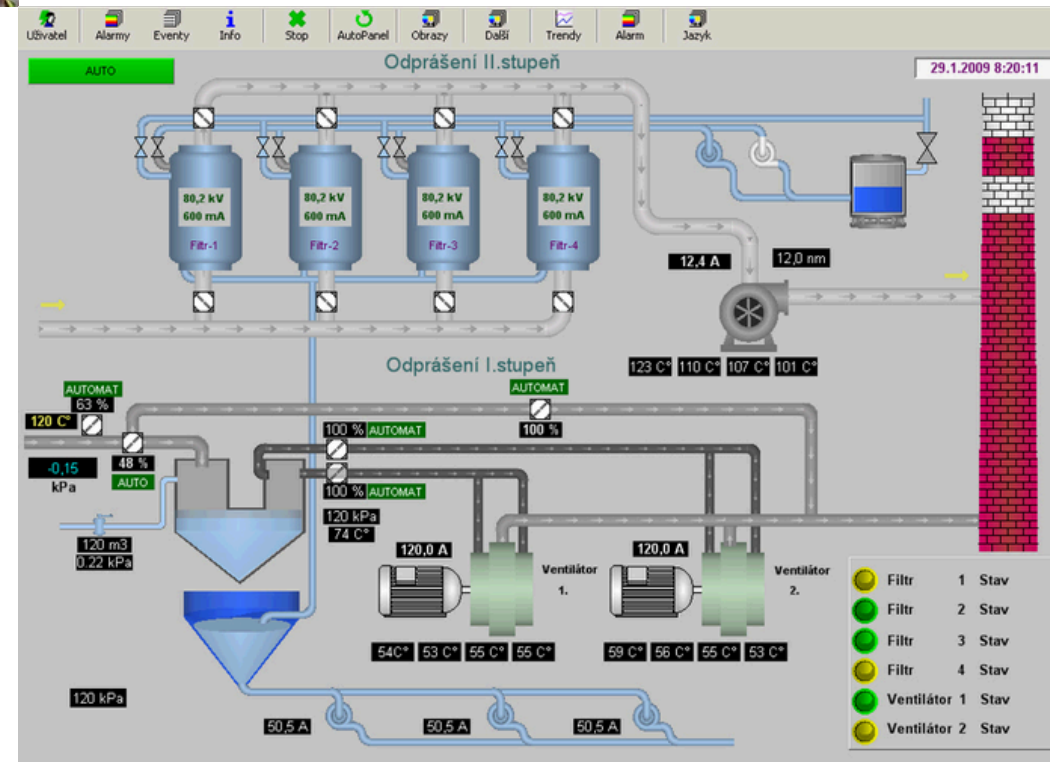

SCADA-HMI APPLICATION

SCADA-DCS Applications like Graphic Development, Tag Linking, Communication with PLC, HMI Development, Engineering stations and operating station

PLC PANEL

P.G.Automation platform deal with PLC Control Panel with Development, programming and commissioning, testing. Turnkey Projects, Machine Automation Application and Process Automation Applications. HMI Applications, SCADA Applications, Total Automation Solutions.

MCC PANEL

P.G.Automation platform deal with MCC panel with great engineering design with quality products

PCC PANEL

P.G.Automation platform deal with PCC panel with great engineering design with quality products

TRAINING SERVICES

P.G.Automation platform deal with Automation Training Services with Live Demo and Live maintenance problems in companies

AUTOMATION TRAINING MANUFACTURING

P.G.Automation has facility to manufacture Automation Training kit for Engineering colleges, Lab Developments in Companies, For Engineering Research Labs.

ENGINEERING SERVICES

P.G.Automation platform deal with Engineering Services, Design services, Engineering consultancy services.

ENGINEERING MAINTENANCE SERVICES

P.G.Automation platform deal with Engineering Services, Maintenance services.

ANTI STATIC BAR FOR TEXTILE AND PRINTING APPLICATION

P.G.Automation manufacturing of Anti-Static Bar with High Voltage Elimination Box
