# **Major Projects Completed**

#### Packaging Machine Automation for Parle Biscuit, Vile Parle, Mumbai, Maharashtra.

**End User: Parle Products Pvt. Ltd.** 

System: Schneider PLC: Micro, Premium and Nano, AC Drive: Atv-31 & Atv-71), Premium PLCs with Cay module for controlling of Servo Drive.

Work Done: Designing, Software Development, FAT & SAT of High Range PLC based System, Panel Design and

HMI: XBT-P, XBT-PM, XBT-F and XBT-G.

Software: PL7 PRO V4.4, XBT L1000 V4.48, and Vejio Designer.

#### Material Handling for Steel Plant Essar, Hazira.

End User: Essar Steel Dept., Hazira.

System: S7-400 H Redundant with Distributed I/O & WinCC Scada

Work Done: Control Panel Designing, Software Development, FAT & SAT of High Range PLC based System for

Material Handling Area,

### (Overseas) Supply & Commission Of Wellhead Control System For Sahil Gas Injectors and Asab Gas Lift, Abu Dhabi.

End User: Abu Dhabi Company for Onshore Oil Operation (ADCO), Abu Dhabi.

System: CPU 414-4 H, S7 400 FH with distributed fail safe I/O's, S7 300 with CP343-1 and TIM 3V-IE (for GSM communication), TX/RX MODEM and Antenna, TIM 4VD (for GSM communication) and WINCC 6.0 (SCADA).

Work Done: Project Development & Commissioning.

# M/C 2940-HPA Shell Core Shooter Machine

End User: Susha Founders & Engineers, Surat.

System: S7-200 (CPU-226) and OP-170B Mono (HMI) Wincc flexible 2005.

Work Done: Project Development & Commissioning.

#### India Rubber Crumb Baler

End User: Apar Industries, Ankleshwar.

System: S7-300 (CPU-313C) and OP-77B Mono (HMI) Wincc flexible 2005.

Work Done: Project Development & Commissioning.

#### Yashashvi Rashayan

End User: Yashshvi Rashayan Pvt. Ltd., Ankleshwar

System: S7-300 (CPU-313C) and WINCC.

Work Done: Project Development & Commissioning.

# Car park Ventilation System, Transpower

End User: Transpower Technology Pvt. Ltd.

System: S7-200 (CPU-224) and OP-77B (Wincc Flexible 2007).

Work Done: Project Development & Commissioning.

#### **CCRHVAC System**

End User: National Thermal Power Corporation, Hazira, Surat.

System: S7-200 (CPU-226) and TP (Wincc Flexible 2007) and runtime data log and alarm log on PC

Work Done: Project Development & Commissioning.

#### Cast Copper Rod-2, Coiler and Miller Project

End User: Hindalco Ltd, Dahej.

System: S7 400, Wincc 7.0, Simoreg Drive and Hmi connected of profibus

Work Done: Project Development & Commissioning.

#### R (Software Redundancy to H Hardware Redundancy)

End User: Essar Steel Dept., Hazira.

System: CPU 414-4 H, S7400H Sync Module with S7400H Fibre Optic Cable.

Work Done: Project Development & Commissioning.

#### **Coil Car System for**

End User: Essar Steel Dept., Hazira.

System: S7- 400 with Distributed I/O through Profibus network.

Work Done: System Designing, Software Development & Commissioning

#### **Biscuit Packaging Machines**

End User: Parle Biscuit, Rudrapur, Uttarakhand.

System: Premium PLCs with Cay module for controlling of Servo Drive,

HMI: XBT-P, XBT-PM, XBT-F and XBT-G.

Software: PL7 PRO V4.4, XBT L1000 V4.48, and Vejio Designer. Work Done: Designing, Software Development, Upgradation.

#### **Boiler Automation**

End User: Jindal Saw Ltd, Punjab.

System: Schneider Twido PLC With Mangalis HMI

Configuration, Communication and Commissioning of System.

#### **Paper Coating process plant**

End User: Tulsi Paper Ltd., Kareli Dastan, Surat

System: Delta DVP PLC and Delta HMI

Work Done: Project Development & Commissioning.

#### **CVD Lab grown Diamond machine Automation**

End User: Devngi Innovations LLP, Surat.

System: S7 1200 PLC System with Wincc RT HMI

Work Done: Control Panel Designing and Mfg, Project Development & Commissioning, Turnkey Solution with

Process Instruments.

#### **Stirrer Application**

System: 50 HP, Danfoss Drive

End User: White Crystals Pvt. Ltd. Vyara.

Work Done: Supply, Programming and Commissioning.

# CVD Lab grown Diamond machine Automation End User: Pragati Enterprise, Surat. System: Delta PLC ES Series, DIAView SCADA. Work Done: Control Panel Designing and Mfg, Project Development & Commissioning, Turnkey Solution with Process Instruments. **Industrial Internet of Things (IIOT)** End User: J K Paper Ltd, Songadh. System: Delta DVP PLC System, S7 1200 PLC System, Schneider PLC System Communicate with KAPP Server and Data transmit Centrally. Work Done: Architecture, Designing, Configurations, Execution. **Boiler ID Fan Controlling with PID Application** End User: Jin Mata Food Ltd., Dhulia, Maharashtra. System: DVP Delta PLC, with Delta HMI, work on WPL Software, Filed Instruments, Siemens AC Drive Work Done: Panel Design, Manufacturing, Development, Commissioning of System. Reheating Furnace 250 Ton and 300 Ton Capacity SCADA Development End User: L&T Special Steels & Heavy Forgings Pvt. Ltd. Migration from Wonderware Intouch to Siemens Wincc Scada 7.5 SP2 Work Done: Development, Commissioning and Testing **Rewinder Automation for Paper Slitter End User: JK Paper Ltd** Siemens S7 1500 profinet with MTP 700 HMI with TIA V 19 Software Work Done: Development, Commissioning and Testing **Oxygen Plant Automation at Paper Plant** End User: Naini Paper Ltd. Upgradation with Siemens S7 200 SMART Work Done: Development and Commissioning and Testing **FBR Automation at Paper Plant End User: Naini Paper Ltd. Kashipur** Upgradation from Allen-Bradley to Siemens S7 1500 PLC, KTP 700 and WINCC SCADA with TIA V19 Software including panel wiring and field wiring. Work Done: Development and Commissioning and Testing In Pipeline project for Calender operation for paper collection and winding machine, and Shriking machine at JK Paper Ltd. Songadh Surat.
