

# CAPABILITIES BRIEFING

SMART SOLUTIONS. STRONGER MISSIONS.

---

“Empowering government agencies to navigate evolving challenges with secure, mission-focused, and transformative solutions.”

# Introduction

## Who We Are

Our President and CEO, Lehman Smith, is a **retired U.S. Army Veteran and Certified Master Logistian** with extensive experience in leadership, logistics, and technology operations. Under his direction, Ani Arrowhead Technologies leverages mission-driven **innovation** to deliver secure, reliable, and forward-thinking solutions that support our nation's defense and critical infrastructure.

**Ani Arrowhead Technologies** is a Native American-Owned, Service-Disabled Veteran-Owned Small Business (SDVOSB) dedicated to driving innovation, optimization, and mission success. We specialize in emerging technologies, logistics, financial, and administrative management. We are committed to transforming government agencies to navigate evolving challenges by delivering innovative, secure, and mission-focused solutions that improve readiness, cost efficiency, and long-term resilience.

**Lehman Smith**  
President and CEO

## Vision

Our vision is to deliver futuristic, secure, and mission-focused solutions that empower government agencies to optimize performance, enhance efficiency, and achieve sustained success in a rapidly evolving digital landscape.

## Mission

To be the trusted partner in providing emerging technology for government transformation, driving innovation and operational success across every mission we support.

# CORE CAPABILITIES OVERVIEW

## Our Services

- **Logistics & Supply Chain Support**
  - Provide management of critical functions vital to the efficient movement and management of goods, services, and information.
- **Administrative & Program Support**
  - Deliver comprehensive administrative support that streamlines operations, strengthens communication, and ensures seamless coordination across mission activities.
- **Financial Management & Analysis**
  - Support accurate budgeting, compliance, analysis, and financial oversight to ensure transparency, resource optimization, and mission-aligned decision-making.
- **Emerging Technology Solutions**
  - Advance mission capabilities through innovative solutions such as AI, quantum-aligned computing, and next-generation automation that enhance speed, precision, and decision-making.

## NAICS

- **541519** – Other Computer Related Services
- **518210** – Computing Infrastructure Providers, Data Processing, Web Hosting, and Related Services
- **541512** – Computer Systems Design Services
- **541511** – Custom Computer Programming Services
- **541330** – Engineering Services
- **541611** – Administrative Support Services
- **541990** – All Other Professional, Scientific, and Technical Services
- **541690** – Other Scientific and Technical Consulting Services

## Small Business

- **Native-American Owned**
- **Service-Disabled Veteran Owned**

# Logistics & Supply Chain Support

**Smart Solutions. Stronger Missions.**

## WHAT WE DELIVER

- Supply Chain Optimization
- Asset Tracking & Inventory Management
- Procurement Coordination
- Lifecycle Management
- Real-Time Visibility & Reporting Tools

## WHY IT MATTERS

Efficient logistics ensure mission readiness, reduce operational delays, and improve reliability from procurement to delivery.

# Administrative & Program Support

**Smart Solutions. Stronger Missions.**

## WHAT WE DELIVER

- Executive & Operational Administrative Support
- Project Management
- Document Development & Records Management
- Customer Service & Front Office Operations
- Workflow Improvement & Process Optimization

## WHY IT MATTERS

Accurate, organized administrative support drives program efficiency, enabling leaders to focus on mission priorities.

# Financial Management & Analysis

**Smart Solutions. Stronger Missions.**

## WHAT WE DELIVER

- Budget Planning & Execution
- Financial Reporting & Documentation
- Data-Driven Forecasting
- Compliance, Audit Support & Risk Monitoring

## WHY IT MATTERS

Effective financial management increases transparency, supports informed decision-making, and strengthens accountability across programs.

# Emerging Technology Solutions

**Smart Solutions. Stronger Missions.**

## WHAT WE DELIVER

- Artificial Intelligence (AI) & Machine Learning (ML)
- Automation & Intelligent Workflows
- Data Engineering, Cloud Solutions
- Cybersecurity Readiness & Resilience
- Digital Modernization

## WHY IT MATTERS

Emerging technologies accelerate mission outcomes by improving speed, accuracy, interoperability, and decision intelligence across the enterprise.

# Cybersecurity & Risk Management

**Smart Solutions. Stronger Missions.**

## WHAT WE DELIVER

- Zero Trust and secure enterprise architecture
- Continuous monitoring, threat detection, and incident response
- NIST RMF, FISMA, FedRAMP compliance support
- Vulnerability assessments and risk mitigation
- Data protection, network security, and access control

## WHY IT MATTERS

Enhances mission resilience, reduces cyber risk, protects critical data, and enables secure, reliable operations across the enterprise.
