| <input type="checkbox"/> 800 MEDIUM PIECED DUET (perimeter at least 144" but less than 200") | <input type="checkbox"/> 6000 EXHIBIT ONLY (not judged) |

I understand that Catawba Valley Quilters' Guild will take every precaution to protect my quilt but cannot be responsible for any loss or damage. I realize CVQG cannot be held responsible for acts of nature or other acts beyond their control. Further, I understand that it is my responsibility to personally insure my quilt if I wish it to be covered during the time it is not in my possession.

Signature _____ Date _____

1. Quilts entered must have been completed since the October 2018 CVQG show. Our Quilts of the Valley show exhibits the work of guild members, and members must have joined prior to the Pre-Registration date, Sept 1, 2022.
2. Pre-Registration will be required to enter a quilt. Forms must be completed for each quilt entered and turned in either by email, mail, or in person, and must have an attached photo of the actual quilt. Incomplete forms will result in a quilt not being accepted.
3. Additions and changes to the various categories are based upon committee decisions in order to reflect changes within the guild and to balance the sizes of the categories. All decisions are made in an attempt to keep things as fair as possible for participants. None are made without research and careful thought and discussion on the part of the committee.
4. There is space to hang approximately 250 to 300 quilts, depending on sizes. The number of quilts entered is not restricted: however, if more than 3 quilts are submitted for judging/exhibition in a single category, each must be prioritized. The Judging Committee reserves the right to limit the number of entries in order to give all show participants opportunity to have their work displayed.
5. Every attempt will be made to have your quilt in the correct category, but if a change is required the committee reserves the right to move the quilt to another appropriate category.
6. Judging criteria will include visual impact, design, workmanship, techniques, color, and general appearance. Each Judge seeks to judge each quilt on the basis of the degree to which the quilter has perfected his/her technique(s).
7. If your quilt is two-sided, Judges will look at the side which does not have the label unless you indicate otherwise on your entry form.
8. At the discretion of the Judges, 1st, 2nd, and 3rd place ribbons may be awarded for each Category.
9. Approximately 15 Honorable Mention ribbons will be available for the Judges to award across Categories at their discretion.
10. Each quilt entered must have a label stating names the quilter/quilters and the name of the quilt. The labels should also be covered with opaque fabric either loosely basted or safety pinned to the quilt. Sleeves are not required.

TERMS:

SINGLE MAKER means the Guild member created the top, cut, sewed, attached the binding, and quilted the quilt. If another person did any of these, the quilt belongs in another category (duet or group). Quilts that have been sewn by one person and quilted by another belong in another category (duet, group, etc.)

DUET means that 2 people (one of whom must be a CVQG member) created the quilt. A CVQG member must have made the top but then it could be quilted by a nonmember.

GROUP/KIT: Making the quilt involved more than two people but a CVQG member must have participated in creating the top. Round-robin, kits, bees, and/or block of the month are group quilts if the manufacturer or store chose the combinations of fabrics to be used. If blocks were purchased, won, received as a gift and incorporated into your quilt, then it is considered that an unknown number of people aided in the creation of the quilt and should be entered into the group category.

Perimeter is found by measuring all sides and adding measures for a total.

Pieced could be traditional piecing or foundation paper piecing.

Applique can be needle turned or machine appliqued including raw edge with any stitch.

Art/Innovative original design (could be photo based, such as pets, portraits, and landscapes) reflects innovative construction and design techniques, theme, subject matter and/or materials – no commercial pattern in this category

Collage quilt might fit into more than one category. It is an appliqued quilt, but if it was created from an original design, it could be considered Art/Innovative. If it was created from a trademarked design (such as Laura Heine) then it would be included with categories 100-950 depending on maker and size.

Mixed techniques could be hand or machine embroidery, embellishments, cathedral window, yo-yos, crazy quilts, or English paper piecing.

Professional would be a person who sells/accepts payment for work OR has done so in the past.
