

To Whom It May Concern:

I am writing to offer my recommendation for the creative services of Bob Beresh and his company Bent River Studio. I have known and worked with Bob for many years. In the past, I have engaged his skill in translating original Japanese video scripts, closed caption text, and graphic design text which had been converted to English by native Japanese language speakers. This material has been used for high profile clients such as Panasonic and Suntory as well as my own narrative film.

This text is meant for an American audience. The local English translation was not correct in grammar and syntax and needed the polish of a native English speaker and writer. Bob was able to look beyond the literal text which was presented in order to find the spirit and intent of what was presented. From this, he was able to craft a translation for the American audience which made sense and conveyed the nuance of the client message.

I trust Bob's professionalism and copywriting skill without hesitation.

Sincerely,
Nick Uemura
