

Vaccine Policy and Education

At Growing Kids Concierge, Dr. Lane strongly believes in the safety and efficacy of vaccines to prevent serious illness and save lives. Dr. Lane follows the CDC and AAP recommended vaccination schedule for all Indiana school mandated vaccinations, which is supported by extensive scientific research.

Vaccines protect both individuals and our community, including those who are unable to receive certain vaccines (if too young or if immunocompromised). For this reason, Dr. Lane requires patients to follow the recommended vaccine schedule. Families who choose not to vaccinate will need to seek care from another medical office.

New patients are required to provide vaccination records before their first visit.

For trusted vaccine information, please refer to the resources below.

Find vaccine education here:

- Clear Answers and Smart Advice About Your Baby's Shots," an excerpt from the popular book "Baby 411" by Dr. Ari Brown – www.immunize.org/catg.d/p2068.pdf
- Vaccine Education Center at the Children's Hospital of Philadelphia – chop.edu/vaccine-education-center/about-vec
- CDC.gov
- AAP.org

I have read and understand the above and agree to the office policy.
