

## Information For Our Patients of Divorced Parents Growing Kids Concierge

**Patient Name:** \_\_\_\_\_

**DOB:** \_\_\_\_\_

Our team at GKC cares about your child(ren) and your family. We understand that going through a divorce is a stressful time for any family. We also understand that the years following a divorce are stressful managing your child's or children's medical care. Please let us know at any time if you feel counseling might be beneficial, as we will be happy to provide a referral to a counselor.

Please understand that our goal in presenting these guidelines is to provide the highest possible level of care for our patients. It is imperative that we care for your child(ren) in an open atmosphere where information is shared with both parents.

### Information Sharing

Under Indiana law, both parents are entitled to information about their child(ren) unless a court order specifically bars a parent from such information. We expect both parents to communicate with each other regarding their child(ren)'s health and medical history. It is not the responsibility of our office to provide information to each parent separately given inadequate communication between parents. Please know that our role is to be impartial and therefore we cannot take the side of one parent over the other.

### Information of File

The address listed first for your child(ren) should be the address at which the child resides. If parents share custody and the child resides at two different addresses, please list the address of the parent providing insurance coverage first, followed by the address of the other parent. Please don't eliminate the "other" parent by listing a stepparent instead, as this prevents us from keeping appropriate information on file when both parents are entitled to information about their child(ren).

### Financial Responsibilities

While one parent may be responsible for payment of the membership fees, the fees must be paid per the contract to make appointments at GKC. GKC will not involve itself in disputed financial matters between parents.

We sometimes find that a parent has been deceptive with regards of the following: payment responsibility, the address at which the child resides, custody arrangements, etc. We reserve the right to dismiss a family from our practice if we believe a parent has been deceptive regarding information shared with our office.

We have read and agree with above information. A signed copy will be provided to both parents and scanned into your child's chart.
