

Basic Package: \$200 - \$350

Get started on your data journey with essential tools and insights to empower your decision-making.

What's Included:

- **Data Cleaning:** We'll tidy up your data by removing duplicates, fixing inconsistencies, and ensuring accuracy, so your datasets are clean and ready for analysis.
- **Basic Data Analysis:** Identify key trends, patterns, and metrics within your data to guide your decisions without overwhelming complexity.
- **Summary Report:** A straightforward PDF report outlining major findings, key trends, and practical recommendations in an easy-to-understand format.

Who Is This For? Perfect for freelancers, small businesses, and startups looking to gain their first insights into their data or improve basic decision-making processes.
