

Standard Package: \$400 - \$700

Dive deeper into your data with advanced tools and personalized insights designed to address your business needs.

What's Included:

- **Data Cleaning & Advanced Analysis:** We'll clean and analyze up to three datasets, including data merges to create a unified view of your operations.
- **Interactive Dashboard Creation:** Using Power BI, we'll build dynamic and engaging dashboards that provide real-time insights into your business.
- **Detailed Insights Report:** A comprehensive, multi-page PDF report detailing findings, trends, and actionable strategies tailored to your business objectives.

- **PowerPoint Presentation (10 Slides):** A professional slideshow summarizing key insights, perfect for sharing with stakeholders or internal teams.
- **One Revision Session:** Review and tweak the analysis or dashboards based on your feedback.

Who Is This For? Ideal for e-commerce businesses and medium-sized enterprises looking to leverage data for strategic planning and improved performance.
