WOOD THERAPY

30 min Treatment	80.00
60 min Treatment	140.00

Wood therapy uses different wooden tools to help break down fat and cellulite. It is an effortless and efficient way of contouring the body without harming the tissues or the skin.

Wood therapy is based on the use of anatomically designed tools of wood, specifically designed for that particular area of the body, making it 100% natural, without allergic reactions to the skin. Through the use of these tools, the breakdown of fat and cellulite is intensified and the lymphatic system is stimulated to remove unnecessary water, fat and toxins from the body.

You are invited to a consultation with our Surgeons, Doctors or Aesthetic Therapist to ascertain your requirements,

**All consultation fees are fully redeemable against any treatment.
Prices are indicative (From) and are subject to variation, depending on whether you select a surgeon, doctor or aesthetician and what type/brand of product your treatment requires.**
