

**Bulk Zero Waste REFILL,
Eco-Friendly, Biodegradable Products.
Sustainable Living**

Our refill concept allows you to save money and reduce your ecological footprint while reducing the use of plastic containers.

Bulk stations allow us to reuse thousands of plastic containers each year that will take between 100 and 400 years to degrade. Your bottles of Pure products are specifically designed to be reused as long as possible.

Laundry Detergent

Made of ingredients that are good for the environment and for health, in an ultra-concentrated formula. It dissolves 95% in water. That means fewer particles released into nature, and fewer residual particles on clothes.

How to Use:

FRONT-LOAD WASHERS (HE) : 20 ml / load.

TOP-LOAD WASHERS : 40 ml / load

Fabric Softener

Designed for sensitive skin. Fragrance made with essential oils. Gets rid of static on any fabric. Leaves a lasting freshness feel on your clothes. Septic system safe. Biodegradable.

How to Use:

FOR FRONT-LOADING WASHERS (HE) : 25 ml / load.

FOR CONVENTIONAL WASHERS : 40 ml / load

*Add more for a stronger scent.

Surface Disinfectant

Health Canada approved. Contains 0.5% active peroxide that kills fungi, germs, bacteria and viruses. It can be used in hospitals, schools, buildings, offices, hotels, factories, washroom and shower facilities. Ideal for floors, walls, woodwork or any water-washable surface.

Ecological and ultra-efficient Disinfectant

How to Use:

For heavily soiled surfaces, clean prior to disinfecting. Spray on the surface at a distance of 15 to 20 cm and let stand for 10 minutes. Rinse and wipe with a clean, damp cloth. Any surface in contact with food or any surface or object reachable by children of oral exploration age must be thoroughly rinsed with potable water. Avoid contamination or contact with food during use and storage.

For use in hospitals and other health care settings: For industrial, hospital and other uses, this product should not be used as a high-level sterilant or disinfectant on a hard surface (countertops, walls, floors, or an instrument that: 1) is introduced directly into the human body and comes into contact with the bloodstream or usually sterile body parts, or 2) comes into contact with mucous membranes, but does not normally penetrate the blood barrier or is not introduced into sterile areas of the body). This product can be used for pre-cleaning or decontamination of semi-critical or critical medical instruments prior to sterilization or high-level disinfection.

Stainless Steel Cleaner

It does not just clean; it keeps it clean longer.

How to Use:

First apply a little product on a rag, then rub on the surface following the grain pattern. Cleaner will form a narrow protective screen which then facilitates everyday maintenance. Repeat if need be.

Stain Remover

Made of delicate natural ingredients, Pure Stain Remover showcases an excellent offensive strategy, geared toward stains. Takes complete care of oil, ink, red wine, make up or grass stains. Its citrus based composition cuts up dirt in smaller pieces.

How to Use:

Spray on the stain, rub and put directly in the washer. Do not let the product dry to avoid dark circles. Keep from freezing.

Dish Soap

Designed with maximum degreasing agents, it tackles big greasy jobs with enthusiasm (hello cooking on the griddle!) Ultra-concentrated, you need less product for a bright clean result. The bottle therefore lasts longer

How to Use:

For best results, put 2 ml of dishwashing liquid per liter of hot water.

Multisurface

Safe for all types of surfaces.

Ideal for windows, mirrors, wood, leather, computer screens, phones, glasses, etc. Gives shine to all surfaces, perfect for quartz and marble! Repels dust with antistatic agent.

How to Use:

Spray on surfaces and clean with a clean, dry cloth.

For cleaning your electronic devices, spray on a clean cloth and then wipe the surface with this cloth to avoid any excess fluid on the machine.

Kitchen + Bathroom

Effective for cleaning the countertop, sink, appliances, cabinets, microwave-oven, floors, ceramic tiles, stainless-steel, chrome, fiberglass and porcelain surfaces.

This product deodorizes areas and is ideal for removing odors from garbage, empty trash cans, basements, toilets and other odor-prone areas caused by microorganisms. Powerful degreaser. Dissolves stubborn stains

How to Use:

For hard, non porous surfaces. For heavily soiled surfaces, spray on the surface and let it sit for a few minutes. Clean and wipe with a clean, damp cloth. keep from freezing.

Multipurpose

Effective for cleaning windows, mirrors, wood, leather, walls, floors and surfaces requiring a neutral pH. Quickly removes dirt without tarnishing, or damaging floor finishes. Shines all surfaces (floors, countertops, mirrors +++). Ultra-concentrated. To be diluted

How to Use:

Mix 5ml of product in 2L of warm water. To clean your windows without a trace in 10 seconds, simply dip your cloth in the solution, wring out well and wash, neutral PH.

Scrubbing Cream

Its pumice stone composition allows you to remove any stain without damaging surfaces.

This cream offers a never-before-seen level of gloss, polish and protection.

Does not leave any greasy film. Cleans bathtub, sink, oven-top, pans and glued food residue

How to Use:

Shake well, pour the cleaner on a surface (if hot, wait until it gets cool) and rub. Wipe with a soft cloth. If necessary, use a scraper for tough stains. Do not use a steel wool or a scouring pad.

PRECAUTIONS

Keep out of reach of children. Avoid contact with skin and eyes. In case of contact, rinse eyes and skin for several minutes. In case of ingestion, drink a lot of water. Do not induce vomiting. Seek medical attention, if needed.
