

We Don't Just Eat Our Greens

We love the Earth.

It's the source of all of our great ingredients. In an effort to show that love, we make every effort to use sustainable methods and materials. All menu items are served in baskets, ceramic, metal and/or bamboo platters with fresh fruit, vegetables and/or herb garnish.

When clients must have disposable place settings we use starch, corn and sugar-based biodegradable, compostable goods. All paper products used are derived from sustainable forestry, recycled and renewable resources.

More detailed information regarding the specific sustainable features of individual items are available upon request.
