To whom it may concerns

I am April Kurtz 633055

I'm Kristal Clark 435064. Roommate I have lived with her two different times. Once in Gladwin B and now in Gladwin A. She is not the same woman that I first meet. She is swollen in her face and in the rest of her body. She is in pain all the time. It looks like she has bell palsy in her face. No matter what she takes for the pain it does not work. Sometimes late in the night, she gets me up to take her to health care. Her skin has changes colors. Normally she is very light skin now she is dark. She don't even go outside. Just to do the things she has to do. I don't understand what's going on with her. She has a mold allergy and is very allergic. She has white stuff coming out of her ears and it never goes away. Both of her ears are swollen. And she can't hear to good. She has this big knot in her neck. Her eyes are so bad that she can't see out of one eye. She has WPW. The DR. told her the mold is making her sick and it is killing her and they are not doing anything about it. The DR gives her all these different pill and none seem to work. This prison needs to let her go home before she dies. The mold is everywhere you look. The prison just paints over it or make someone clean it off. Every time Clark take a shower she come out and can't breathe. She cough so bad I feel bad I can't do anything for her. The Krystal I know she use to do hair and she loved to cook now she is to sick to do any of that now. I miss the old Kristal I want her back. She is weak all the time. I take her to all of her callouts to health care. The DR. S. tells Krystal that she is doing this to her self. The DR don't do anything for her. Today is 5-27-2022, I took Clark over to health care. We tried to talk to DR. S and she just walked off. Even Officer Potter said she walk off too. Can you please tell me how the Warden can let Clark set here and not let her go home? Sometimes she forgets things. This mold is eating away at her Brian. She cries a lot in she sleep because she is in so much pain. Please help before it is to late.

Thank you for your time and consideration
April Kurtz #633055
