

5-20-22

I meet Miss. Clark in 2019, when I  
Frist meet her. She was always up  
and walking and always on the go. She  
Never had to be in a wheel chair like  
She is Now, When She would let the  
officers know that She's having a hard time  
with breathing Our Health Care would  
Say well send us a (kite). Then about  
2 weeks later ~~they~~ they'd see her. Some  
Officers wouldn't even send her  
because they felt like it was ALL  
fake. Now that it 2022 She's wheel chair  
~~band~~ band She now has to wait for  
An Aid to assist her. She had beautiful  
eyes, And very beautiful skin tone. Now  
her eyes have to be covered with big  
ugly sun glass. Her beautiful skin is  
All dark and has big black spots all  
over her. She used to be a beautiful  
skinny woman. Now she's got so much  
fluid she swelling every wear. She cant  
cant even put shoes on ~~her~~ because her  
feet are swollen. Miss Clark also never  
had a bad cough like she dose now.

Back

She cant Even hold a conversion without  
Having to take very deep breathe's and  
then Shell go into very bad coughing spells  
to where her chest hurts. I hope that  
Miss. Clark Can be able To Be released  
From this mold Infested prison. She Needs  
better health care then what the Prison  
Care give her. Thank you And Have  
a blessed Day

Monique
